Day 1

CHAMPS and Discipline in the Secondary Classroom

This session offers both new and seasoned K–12 teachers practical tools for designing a classroom management plan that prevents problems, motivates students, and teaches students to behave responsibly. Participants will identify ways to structure and organize their setting and routines to prompt responsible behavior, clearly convey expectations for how to behave responsibly in all classroom activities and transitions, and use powerful observational skills and tools for decision-making. Learn essential strategies for classroom management, including:

- Using an effective attention signal
- Interacting positively with students
- Delivering corrective feedback and designing a menu of corrective consequences

This session is for classroom teachers and personnel who support teachers with classroom management (e.g., administrators, behavior interventionists, instructional and behavioral coaches)

Book included: *CHAMPS* (K-8) or *Discipline in the Secondary Classroom* (9-12)

Day 2

Analyzing Your Multi-Tiered Systems of Support for Behavior (MTSS-B)

A Multi-Tiered System of Support (MTSS) is built to ensure that layers of support are available to meet students' varied needs and to help all students thrive. This session provides an overview of an MTSS approach to behavior and gives you the opportunity to assess strengths and weaknesses of your current system. Reflect on where you are in your MTSS process, learn about what is being done in other districts, and get an overview of the range of approaches and resources Safe & Civil Schools can provide to support your district across all three behavioral tiers.

You will leave this session with concrete ideas for implementation and begin thinking about ways to effectively address areas of need, including:

- Using a comprehensive, team-based approach to address schoolwide climate and safety
- Implementing an effective classroom management approach across all classrooms and helping all teachers implement classroom-based interventions
- Designing systematic approaches and interventions for Tier 2 and 3 behavioral needs

Book included: *Interventions*

REGISTRATION • SAFE & CIVIL SCHOOLS

Clear Form

PROFESSIONAL DEVELOPMENT BEHAVIOR SUPPORTS
