Visa is a certificate issued by an immigration officer of a country or a stamp (on the applicant's passport) to indicate that the credential of the applicant has been verified. And he or she has been granted authority to enter the country for a short stay within a specified period. This permission, however, is provisional and subject to the approval of the immigration officer at the entry point.

It allows a person to travel to the visiting Country during the dates stated on the Visa. Please note a Visa does not guarantee entry into the country. An Immigration Officer at the Port of Entry has the authorization to allow or refuse admission and to decide on the duration a person may remain in the State/Country.
