RUG CLEANING ELIGIBILITY

We clean select synthetic and machine-made area rugs.

We do not accept:
Oriental, Persian, wool, silk, viscose/rayon, antique, hand-knotted, or other specialty rugs requiring specialized restoration processes.

POWERFUL EQUIPMENT. PROVEN METHODS. RESTORATION-LEVEL RESULTS.

Pricing based on size, condition, fiber type, accessibility and level of contamination.
Stain removal is treatment-based; complete removal of every stain cannot be guaranteed.
Pet odor treatment addresses odor sources that are accessible to the cleaning process. Severe urine saturation, padding, subfloor contamination, backing damage, or repeat contamination may require additional restoration services.
