MISSION POINT

Amigos Internacionales is fully committing in 2024 to our Missionpoint initiative of developing spiritual communities in the rural parts of Africa. This year, mainly in Northern Uganda and Tanzania. Expansion into other areas will be dependent of the funds provided in the coming months.

2023 was a banner year for our accomplishments but we still have capacity to enlarge and increase God's territory. Highlights of 2023 included but were not limited to 1159 people saved, 4 new churches in Uganda and 2 churches beginning support in Tanzania. Open Hands Academy built a new classroom block increasing capacity from Preschool to Primary expanding our student population to 245 pupils. With assistance from New Hope Baptist Church, we started a preschool of 35 students in Chibe, Tanzania. Our sponsorship program has grown to over 49 qualified students. The developmental farm in Ogul recieved a hand tractor which is helping the local community to farm and provide food for our school and church families. In Pawik, the paper church built a beautiful brick building and in January of this year, we will begin a preschool for 60 students.

Missions Report:

From the field 2023

Mission Church	Total Saved
Agape - Ogul	426
Pawik	273
Padibe	129
Palebek	167
Odibe Village	90
New Harvest-Chibe	74
Total Saved	1159

GUATEMALA

2023 we successfully delivered 7.5 million meals to Guatamala for distribution by our partners at Buckers International. Although in April of this year we submitted another grant for the upcoming year, due to cutbacks in Governmental expenditures in the USAID Food for Peace initiatives, we did not receive a grant for 2024. There was a major change in the leadership in Buckner Guatemala that led to less communication on their part to us, however we received the information for the final grant documents which will be submitted by end of Quarter 1 of this year.

AFRICA

UGANDA

AMIGOS CHILREN'S HOME

In 2023, we saw the need to abadon the work in Buikwe and focus elsewhere.

Gulu and Ogul Village

Highlights from 2023 in Uganda

1. Phase 2 opened up in Ogul Village - 246 student capacity
2. Hand tractor delivered to Ogul Village farm - capacity to farm and help neighbors greatly enhanced
3. Fully enclosed goat pen created with goat barn and watering.
4. Second solar panel installed to pump water to towers that were installed.
5. Child sponsorship enlarged to almost 50 children.
   Our sponsorship program consists of 22 children (7 boys and 15 girls) in Northern Uganda. 6 students are in Secondary School, 15 students are in primary school and 1 child is in Preschool. 5 of these children are enrolled at Open Hands Academy.
6. The need arose with our new building to add an additional latrine which construction has started in January of 2024 .

COPYRIGHT AMIGOS INTERNACIONALES, INC. 2023 ©

AGAPE BAPTIST CHURCH

Making soap and Petroleum Jelly

With the loss of Geoffrey to another local ministry, Pastor Santo stepped in and has done an admirable job! Agape Baptist Church on the Amigos Campus is working to enrich lives and help give all villagers a hand up out of local poverty. Agape, in its third year, has baptized over 426 people and attendance is well over 200 each week. Discipleship is ongoing and now that Isaac (one of our graduates) is working as an Associate Pastor, the youth and children are flourishing. One of the challenges for Agape is the need for their own latrine which they are in the process of digging and making and we need funding to finish up the facility. Covid struck during construction and prices skyrocketed so we were unable to finalize the flooring and plastering of the walls. ($17,000). Amigos shipped soap making materials to Agape and soon the classes will begin and the ladies will be taught how to make soap and mold it into beautiful shapes. Agape in training new believers and those that sense the call to do more with Pastoral training classes to prepare young men to work in the Amigos' mission projects at the refugee settlements. Soap and Petroleum Jelly making classes have helped the village to develop enterprises to financially enrich villagers' lives.

DEMONSTRATION FARMS

Farming is going well, this year's crops included rice, beans, casaba and corn. The school entered into an agreement with the Ugandan Government to teach conservation and a section of the land was planted in trees by the students. Our Bohr goats have been put on hold as we decide the best way forward. Prices since Covid have increased dramatically and with the exit from our Children's home, the need for these types of goats are being weighed by the local farmers there.

MISSIONPOINT OPPORTUNITIES

Pawik Baptist Church has exploded in it's outreach as Pastor Martin has become the leader for our refugee settlement areas. He and Pastor Santos have worked tirelessly to find areas for our expansion of Missionpoint and they are the ones that challenged us to reach 25 settlement areas for Christ in the coming years. We are challenged to be working to fund this ministry each and every day.

COPYRIGHT AMIGOS INTERNACIONALES, INC. 2023 ©

Palabek Baptist Church has done well with the drilling of the water well on site. The introduction of the Lifeskills classes have rejuvenated the membership and encouraged many young women suffering from many hardships to be a part and join the church. Under the leadership of Pastor Martin, this church has 12 teams that are ready to evangelize an area and even move to the new location to help start God's work.

Padibe Baptist Church, a church deep into the bushlands, is struggling without a building. Although we drilled a well and they rejoiced, the rainy season has been difficult to gather people under the trees. We are working to see how we can assist them and Odibe Village with places of worship. Our Tanzania efforts may encourage them to build a less expensive place of worship although it may be more temporary than they would like.

Odibe Village Baptist Church has seen it's challenges. The village leaders agreed to donate the land and money was given to drill the water well, however both boreholes came up dry. The local witchdoctors rejoices and laughed believing their prayer and sorcery kept the "weaker Christian God" at bay. In spite of these setbacks, additional money has been raised and in February we are going to try again, using a different sonogram geophysical survey method to locate a water source. January 17, Pastor Martin began an evangelistic event to start the church and move it forward. We look forward to hearing great things in the near future from this effort.

Waligo Border Village is our newest Missionpoint effort. Having recently received land from the village elders, our water well drillers will be arriving soon to start their well. This area is the closest area to the South Sudan border and near the entryway gate. Our Missionpoint will be one of the first things the refugees will see coming into Northern Uganda. We will be poised to reach many through this effort. Money has been given for this well also.

Loyobo Village is also on our agenda for early 2024. Justine Kidega, our local governmental official requested our efforts to add this to our Missionpoint initiative. The water source for over 200 families is a small water drainage ditch with runoff flowing from the pigs and cows. Many villagers are sick every week. Pastor Santo is meeting with the elders and they have initially agreed to donate the land for this work. Money has been given for this effort as well, although more could additionally be used.

TANZANIA

SHINYANGA PROVINCE

We began the year without a thought of expanding anywhere except around Uganda. God opened up our eyes and provided us with a leader in Pastor Jacob Bonney to lead us into a great awakening that is occuring in the rural regions of Tanzania. His commitment to evangelism and assisting local, rural pastors has been inspiring. He has become our Tanzanian Director of Operations and is leading his crew to commit to 3000 souls saved this coming year. This region of Tanzania is 2/3 Muslim and heavily influenced by shamans, witchdoctors and the dark arts. We are committed to being the light this dark countryside has needed for years.

FAR VISION SCHOOL

Far Vision School was a work of God in 2023. With a building surrendered to the village, Pastor Jacob's vision of reaching preschoolers that had no way of beginning in school has taken flight. We currently have 40 preschool children from orphans and vulnerable families getting the chance for a greater educational start then they had ever dreamed. Most would not be able to enter the next level of school and without the education, they would be behind and not be sucessful. We are hearing from the community now that the poor children cannot be distingished from the wealthy students and ours are learning English at a faster pace. Pastor Jacobs plans on expanding the school to over 110 children if we can fund the work.

New Harvest Fellowship Church has reached out to the local communities and with the help of Amigos began getting the villagers excited about church again. The church provided labor to repair homes after a storm and Amigos provided the funding to purchase building supplies. The choir loaded up on a bus and began a work to rejuvenate a small church in Bubike. Following a morning service, the choir went to the community gathering area and began singing and starting to preach a local, wealthy business man was saved and is now bringing others to church.

Bubike Community Church is now one of our Missionpoint churches after the revitalization of the church by Pastor Jacob. The pole barn they were fellowshipping in fell and Amigos and New Hope rebuilt them a metal temporary shelter. They are now solidly behind our efforts and working to win their village to Christ.

COPYRIGHT AMIGOS INTERNACIONALES, INC. 2023 ©

Ihapa Baptist Church is one of three rural Baptist Churches that have been devastated by pastors that have misused funds and split off church members. These churches had no structures to worship in and needed help. US missionaries gave money to these churches and the former pastors squandered the money and left the community in splinters. New Hope and Amigos recently built a church a building for them to worship in.

Sayu Baptsit Church is in a similar position as Ihapa and due to the efforts of New Hope and Amigos' will be constucting a building here as well. Outreaches will be planned in each of these areas to further support the church.

Mwamadilanha Baptist Church is another Baptist Church that need a fresh touch from God. The last week of January 2023 will be the week for the construction of their new building. Again, evangelistic events are planned to encourage the church and see revival in these villages.

Amigos in conjunction with Pastor Jacobs vetting has agreed to support these pastors and there work with a small salary each month and the purchase of phones for their use to take photos and reach out to members. In Ihapa, Pastor Jacob met with a local pastor that pastored a small group from Ihapa that left. He encouraged them to join togther again under the leadership of Ihapa's present pastor and the new pastor, Pastor Jackson will move to another village that needs a church and will begin a church there.

UNITED STATES

AVIATION DIVISION

Our Aviation Ministry continues to fly Angel Flight missions for families arount the country. In 2023 we provided over 11 flights helping cancer victims reach the hospital safely. Bill Arnold heads up this division.

TRAUMA MINISTRY

Dr. Ernest Izard

Ernest has continued the work of our Trauma Ministry in 2023. We had two classes in our offices and amazing things occured in peoples lives. We developed the ministry name of "Heartmend" to give meaning to the work we will be doing around the world. We also have begun the process of working with veterens suffering from trauma related issues and will be working with Chaplain Charlie, to see this successfully instituted.

COPYRIGHT AMIGOS INTERNACIONALES, INC. 2023 ©

CHALLENGES - 2024

Our greatest challenge still focuses around the funding of our ministries. God has miraculously funding the work in 2023 and will continue into the future. We still must reach out "beyond our fingertips" to encourage others that are not aware of our ministry to learn to love our children and mission as much as we do. We are taking steps toward that with new marketing techniques and a vision for new growth. The recent cancer scare encourages me to reach farther and do more and to find someone that could lead us past where I can take us. Pray for that person!

AMIGOS FUTURE

2024 is proving to be an exciting year. Our rapidly expanding presence in Tanzania with rural church keeps Amigos on the forefront of ministry no one is undertaking. Stories coming from these rural areas of lives changed and helped should propel us into a great year for God's ministry. I know that it will be an exciting year for all our Amigos family. We continue to formalize our office and administrative staff, and we see many opportunities ahead. Several of our goals for the coming year are as follows:

Uganda:

Ogul Village:

School:

1. Continue to Increase students of OHA to capacity for Primary. (264 children).
2. Add staff to increase capacity.
3. Finalize construction of toilet facilities and running water system

Agape Baptist Church:

1. Finalize construction of the facility and official naming of the structure.
2. Pastoral training to continue through World Hope Bible Institute (WHBI) in Pawick.
3. Life skills training to increase the livelihood of village members (soap, jellies)

Farms

1. Further develop farm
2. Add milk goats into our herd of meat goats
3. Add coffee beans to farm
4. Harvest Eucalyptus trees for market
5. Receive foundation and grants to add farms at 3 Missionpoint locations .

Refugee Settlement Ministry

1. Additional land accepted and additional Water wells drilled by Quarter 2
2. School/Church finalized in Odibe Village (fully funded) by Quarter 2
3. Develop 5 Missionpoint churches through stage 1 (see below)
4. Worship services begin with temporary building and chairs (supplied) by end of Quarter 3 in new areas of land given to us.

COPYRIGHT AMIGOS INTERNACIONALES, INC. 2023 ©

Tanzania:

Shinyanga

Chibe:

1. Far Vision School enlarged to 110 preschoolers
2. Develop and encourage 12 rural pastors and churches
3. Assist in construction of permanent building for New Harvest
    1. Give permanancy to church
    2. Establish a regional training center for pastors through WHBI.

Feeding Grants

Guatemala

1. Grant submitted for 2024 - April 30 (depends on USAID)
2. Manna boat shipped to Belize for Beto and the Smiths

Administration

1. Funding shored up for administration (private donations, grant funding)
2. Grant writer secured (in house or per job)
3. Marketing Manager/Management group - end of 1st Quarter
4. Additional staff member (finance, donor relations)
4. Develop ministry to reach speak in one church/week by Quarter 2
5. Hit the convention circuits.

AMIGOS INTERNACIONALES

Because every child...
is a person of value,
has unlimited potential, and
can contribute and make their world better.

Amigos will...
feed them when they are hungry,
give water when they thirst, and
teach them to be the best they can be!
