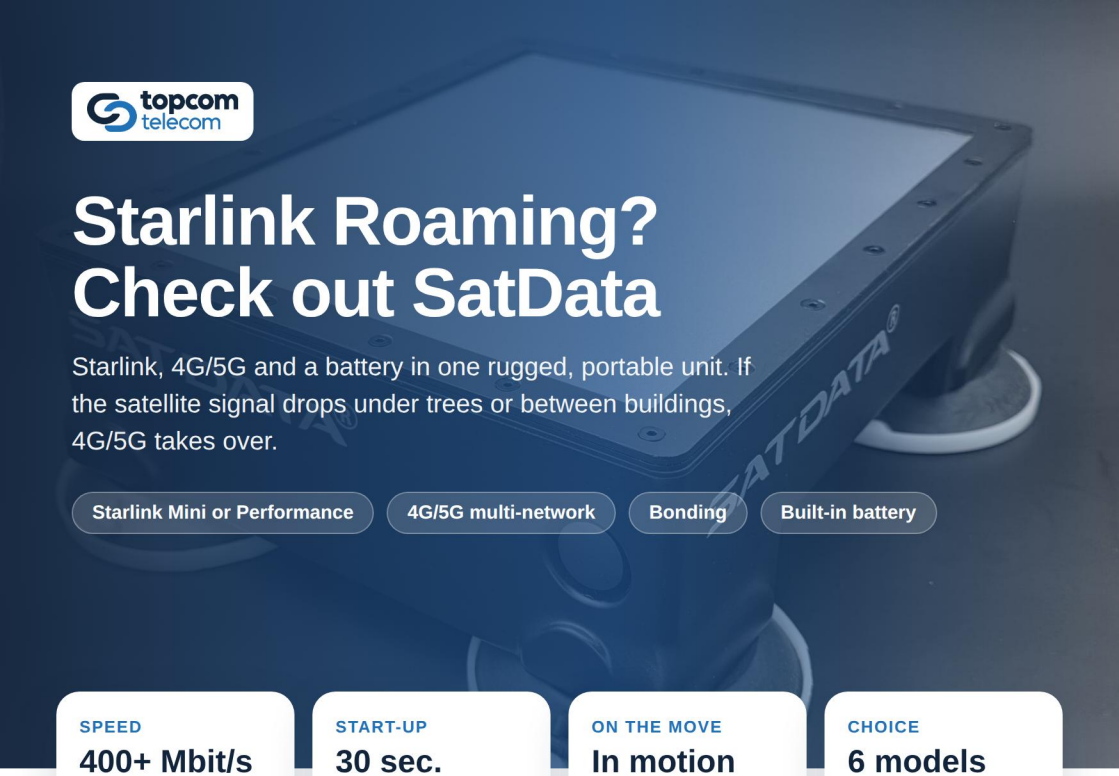
Starlink Roaming? Check out SatData

Starlink, 4G/5G and a battery in one rugged, portable unit. If the satellite signal drops under trees or between buildings, 4G/5G takes over.

Starlink Mini or Performance | **4G/5G multi-network** | **Bonding** | **Built-in battery**



SPEED
400+ Mbit/s
download for business users

START-UP
30 sec.
switch on and connected

ON THE MOVE
In motion
in vehicles and on the water

CHOICE
6 models
plus SatData Radome

Starlink Roam or SatData?

	STARLINK ROAM ONLY	SATDATA WITH STARLINK
Mobile 4G/5G	no	yes, several networks
Under trees or between buildings	connection drops	4G/5G takes over
Bonding	no	standard on Fusion, optional on other models
Own power	mains or separate battery needed	built-in LiFePO4 or swappable Bosch ProCORE battery
At sea	inland waters and up to 12 nautical miles offshore	open sea with Global Priority

Six models: PortLink, Core, Nexus, Fusion, SecureLink and Vanguard, plus SatData Radome for on board. Starlink is a trademark of SpaceX.
