Controls Foam
Safely & Effectively

Flatline™

Defoamer

Kill Foam Before It Starts!

Proudly made in the USA

This product is an ideal additive whenever foam control is needed. It is highly concentrated, water-based, safe and easy to use. The use of this product can save time and money and make the overall spraying process more effective.

1 US Gallon
Net weight 8.3 lbs

Rear label

Flatline™

DIRECTIONS FOR USE:
For most spray tank applications, 1 to 3 ounces of Flatline™ Defoamer per 100 gallons of tank mixture will control foaming when used as a preventative. Flatline™ will be most effective if added to mixture first and slightly diluted with water before adding other chemicals that have the propensity to foam. If foaming has already occurred, double rates can help speed recovery from existing foam. It is always easier to prevent foam from occurring than it is to reduce existing foam.

CAUTION: MAY CAUSE EYE IRRITATION. Avoid contact with eyes. FIRST AID: In case of eye contact, immediately flush eyes with plenty of water for at least 15 minutes. If easy to do, remove contact lenses if worn. If irritation persists, get medical attention. KEEP OUT OF REACH OF CHILDREN

Active ingredients:
Proprietary Silicone defoaming agent…….10%

Warranty and Limitation of Damage

Four Star Services, Inc. warrants that this material is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use and BUYER assumes the risk of any use contrary to such directions.
