

## COURSE MARSHAL VOLUNTEERS

**Absolutely NO cars are allowed on the course for ANY reason**

Watch for spectators crossing the road or near the course. **Ensure they do not cross if pace car or cyclists are approaching.** Look to preceding course marshal station for flag, if visible.

Caution spectators in crash zones to stand back (the outside of curves/corners).

FLAG UP as you see the Pace Car.

FLAG DOWN after the trailing moto or the last rider.

The peloton often splits into two or more smaller groups or leaves a rider trailing far behind. BE ALERT always!

### IF YOU OBSERVE A CRASH:

If you have been assigned a walkie-talkie, and see a crash, **immediately** use the walkie-talkie to notify Central Command. **If moto official is on site, no action needed.**

*"This is position #n located at (name the intersection of streets)." Provide a brief description ("riders staying down / riders are up")*

**If there is a crash and riders are coming, FLAG THEM To CAUTION THEM. Yell "Crash!" Get their attention so they can avoid it.**

## COURSE MARSHAL INSTRUCTIONS

When the race is on, always stand ready to go. As racers appear in view, raise the flag until the last racer crosses.

DO NOT sit during the race or raise the flag from a sit position. This can cause a serious safety issue for both spectators and racers alike.

## COURSE MARSHAL VOLUNTEERS

**Absolutely NO cars are allowed on the course for ANY reason**

**Be patient and personable.** Some citizens you're working with may be frustrated.

Smile and thank them for their cooperation!

Be firm about stopping spectators and athletes from crossing when racers/pace vehicles are approaching.

Call and ask for help if needed.

Provide directions to team tent area as needed.

Provide directions to rider registration as needed.
