CARTER-LAMBERT DIVISIONS, LLC

SBA-CERTIFIED SDVOSB + HUBZone | MARYLAND VSBE

Capability Statement for Small Business Representatives and Contracting Officers

MISSION-READY IT, CYBERSECURITY AND LOGISTICS SUPPORT FOR FEDERAL ACQUISITIONS

FORERUNNER STATEMENT. Carter-Lambert Divisions, LLC delivers acquisition-ready IT, Cybersecurity, Logistics, and CBRNE mission support through SBA-certified SDVOSB and HUBZone pathways, reducing procurement lead time while providing cleared, scalable, DCAA-compliant support worldwide.

CORE CAPABILITIES

INFORMATION TECHNOLOGY

- Enterprise infrastructure, network and systems administration; cloud, database and SharePoint migration
- Software engineering, data analytics, IV&V, help desk, field support and COOP

CYBERSECURITY

- RMF, A&A, CSOC/SOC operations, incident response and cybersecurity risk assessments
- Penetration testing, insider threat, malware analytics, code assurance and security documentation

LOGISTICAL AND MEDICAL SUPPORT

- **Lifecycle and acquisition logistics:** integrated logistics support, supportability analysis, Life Cycle Sustainment Plans and product support strategies.
- **Supply and warehouse support:** procurement, provisioning, receiving, inventory reconciliation, packaging, handling, storage and transportation.
- **Property accountability:** GFP/GFM tracking, asset visibility, hand receipts, serial-number records, lateral transfers and excess property.
- **Fielding and training:** fielding plans, equipment inventories, functional checks, hand-off documentation and new equipment training.
- **Sustainment and readiness:** maintenance planning, repair coordination, obsolescence management, contractor logistics support and transition planning.
- **CBRNE mission support:** equipment surveillance, readiness reporting, technical data review and field service coordination.
- **Logistical and Medical Support:** medical countermeasure coordination, clinical/non-clinical documentation, manufacturing and technology transfer support, and risk tracking.
- **Quality and regulatory support:** quality systems, audits, corrective actions, SOPs, regulatory documentation and GMP/GLP/GCP coordination.
