December Week 3 Circuit Modifications

Circuit Modifications - Switch up some of the stations or reverse the direction of the circuits to keep them fresh for the 3rd week.

Add the following stations to the previous week's circuits:

Blue Room

Snowball balance and grabbing transfer – students will balance on a squeaky dot while using the grabber to transfer a snowball from 1 bucket to the other bucket.

Walk across balance beam while balancing Christmas objects on head.

Purple Floor

Snowflake spin on bar - hold onto ninja wheel and spin like a snowflake.

Snow shoe walking across beam – straddle beam with feet on mat and walk on paper plates, aka "snow shoes"

Sloth hang on bar.
