7th Grade WEEKLY Newsletter

WEEK OF: November 2-6

literacy

Our mini-unit has turned into a longer unit about analyzing informational texts. Students were not ready for the test, so I have pushed it to next week Wednesday. We are doing more practice analyzing interactions between individuals, events, and ideas.

art

All of the groups finished their Paper Chain Pixel Art projects, and we began working on an armadillo ornament that will be displayed at the zoo.

Teacher note

As you know, only four students met their reading goals last month. Students choose their own books, and we discuss their goal together, so they have input. If they were actually reading at home each day, I believe they could easily meet their goals. Many mornings, students come in discussing group chats or *Fortnite* sessions they were in the night before. I would like to ask that you encourage your child to read for at least 20 minutes before turning to technology in their free time. Reading is such an important life skill that needs practice in order to be improved. Thanks for your support in helping your child grow as a reader.
