brandon@hiyieldpacific.com | 978-870-2240

HiYield Pacific LLC is a Hawaii-based, SBA-certified Service-Disabled Veteran-Owned Small Business providing electrical facility support, critical power, energy infrastructure, construction management and procurement services to federal customers. HiYield serves as the single point of accountability between Government customers, qualified field partners and the records required for compliant performance. The company is led by a Navy nuclear-trained veteran whose career spans military, Army installation, utility, government energy and data center infrastructure.

CORE COMPETENCIES

- **Electrical facility support:** commercial electrical maintenance, troubleshooting, repair, preventive maintenance and emergency response coordination
- **Critical power and mission-critical facilities:** UPS and critical systems, data center operations, and support for occupied healthcare facilities
- **Energy infrastructure:** solar, battery storage, demand response, utility PPAs, ESPC and UESC development, life-cycle cost analysis
- **Construction and project management:** cost forecasting, scheduling, procurement, RFIs and submittals, change orders, subcontractor oversight and closeout
- **Equipment maintenance and repair programs:** service-call intake, OEM-certified technician dispatch through vetted partners, task-order repair, warranty tracking and inspection records
- **Prime contract management:** work authorization, scope confirmation, subcontractor flowdowns, invoicing and Government reporting
- **Safety and quality administration:** pre-task planning, field documentation, photo records, service record review and corrective action follow-up
