FREQUENTLY ASKED QUESTIONS

Good to know

What is an eSIM?

An eSIM is a digital SIM card that is already built into your phone or tablet. You install the profile with a QR code, without a plastic card.

Does my phone support eSIM?

Most recent smartphones and tablets support eSIM. You can usually find it in the mobile network settings. Not sure? We are happy to help.

When do I install the eSIM?

Preferably at home, before you leave, with a Wi-Fi connection. On arrival, switch mobile data to the eSIM.

Do I keep my own number?

Yes. Your own SIM card stays in your device. You remain reachable on your number and WhatsApp keeps working as usual.

Can I make calls?

Most plans are data only. Calling via WhatsApp and other apps works as usual. For some countries there are plans with call minutes and texts.

What if my data runs out?

Simply top up. There is no need to install a new eSIM.

What does unlimited mean?

Unlimited data, within the fair use policy of the local network.

Can I order eSIMs for my team?

Yes. We arrange eSIMs for several employees at once, with a single point of contact. Please get in touch.
