SECURE REMOTE ACCESS

## OpenVPN via the FL1 portal

Your SIM cards run on a private APN. With the OpenVPN connection in the FL1 portal you reach your devices securely from anywhere. Only you, as the user, have access to your SIM cards.

**1 Private APN**
APN data0314 or fl1ss, with a fixed private IP address per SIM card

**2 OpenVPN in the FL1 portal**
Encrypted connection to your routers, cameras and sensors

**3 Only you have access**
Your SIM cards and devices can only be reached by you as the user

| SIM CARD | SUBSCRIPTION | FL1 PORTAL | OPENVPN |
|---|---|---|---|
| **€1.75** | **€0.50** | **Block networks** | **On request** |
| each, one-off | per active SIM per month | set it yourself per country | secure remote access |

✓ Automatic network selection · ✓ LTE-M and NB-IoT in many countries · ✓ Billed per MB · ✓ One SIM for 364 networks
