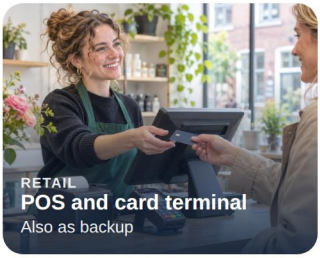
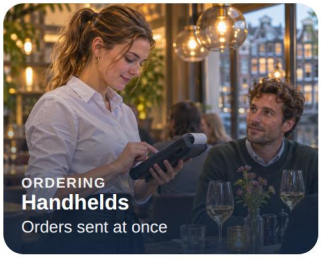
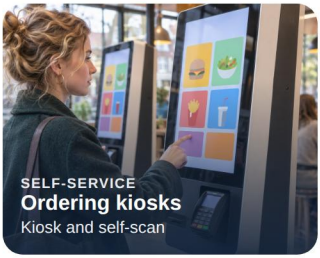
WHO IT IS FOR

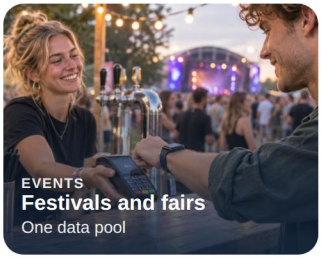
Wherever people pay and order

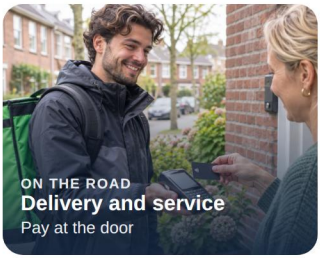
From one terminal at a market stall to thousands of POS systems and kiosks. Also for suppliers and rental companies of payment devices.











Supplier of payment or POS systems?

Refer your customers to Topcom Telecom. They get the SIM or backup that suits your equipment, even in small numbers.

Terminal on Wi-Fi only?

If the Wi-Fi or internet fails, payments stop. A router with a SIM takes over automatically, for the POS system too.

BUNDLES AND PRICES

Data per device, or shared in one pool

Price per SIM per month, including the €0.50 subscription. All SIMs share one data pool, with the same rate in 11 countries.

50 MB Fixed terminal, few transactions	**€0.59**
100 MB Shop, hospitality and market	**€0.65**
250 MB Busy point of sale	**€0.85**
500 MB Mobile terminal, all day	**€1.15**
1 GB Android or PDA terminal	**€1.75**
2 GB POS, handheld or kiosk	**€2.99**

Example: 20 terminals with 100 MB each: 20 × €0.65 = **€13.00 per month**. Together they share 2 GB. Also 3 GB for €4.25.

BACKUP INTERNET FOR WI-FI AND POS

MOST DATA

Odido 5G Backup

€10 p/m

2,000 GB fair use. For the shop or venue router.

KPN

KPN 5G Backup

€12.50 p/m

100 GB per month on the KPN network.

ONLY WHEN NEEDED

Melita Backup

€0.50 + €1 p/GB

You only pay for the data you actually use.

Data bundles: data only, valid in the Netherlands, Germany, France, Spain, Austria, Ireland, Israel, Moldova, Poland, Romania and the United Kingdom. SIM card one-off €2.25. All prices excl. VAT, cancel monthly.

TECHNOLOGY AND MANAGEMENT

Every payment goes through

A SIM in the terminal, or a router with a SIM for Wi-Fi devices and the POS system. The portal shows usage per SIM.

NETWORKS

Strongest network

KPN, Odido and Vodafone. If one drops out, the device picks another.

WI-FI DEVICES

Router with SIM

If the internet fails, the router switches to 4G or 5G by itself.

MANAGEMENT

One portal

Usage per SIM, set data limits, switch SIMs on or off.

Terminal from a payment provider

Some terminals only work with the payment provider's own SIM. Check this first. If not, a backup via Wi-Fi helps.

Remote management

With a static public IPv4 address from €5.50 per month (FloLive) or a private APN, you manage POS systems and kiosks securely.

SIM 3-in-1 | Global IoT in 221 countries | Data limit per SIM | Routers on request | Cancel monthly

HOW IT WORKS

STEP 1

Tell us about your devices

Number, device type and whether it runs on Wi-Fi.

STEP 2

You receive a proposal

SIM, data pool or backup with router.

STEP 3

We deliver

Ready to use, also in large numbers.

Request a proposal for your devices

Tell us the number of devices and how they connect today.

WhatsApp +31 6 8022 9988 | +31 575 474 731

Static IPv4 with other bundles and routers: price on request. All prices per SIM per month, excl. VAT. Prices and errors subject to change.
