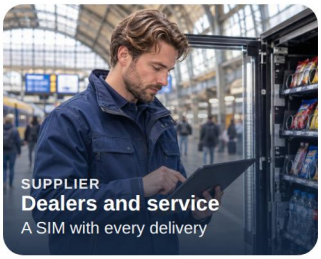
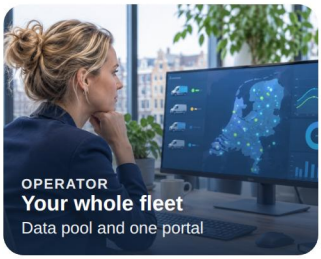
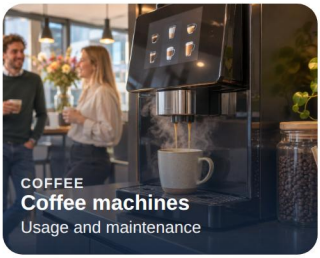
WHO IT IS FOR

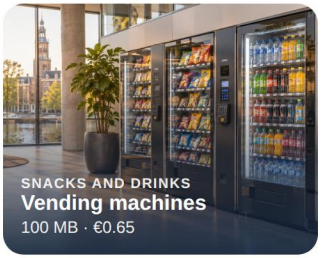
For everyone who builds or runs vending machines

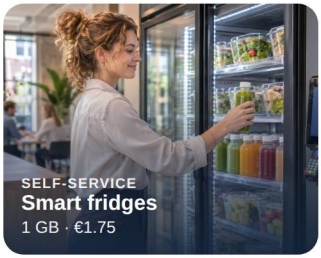
Manufacturers build the SIM into the machine. Suppliers and operators activate it once the machine is on site.

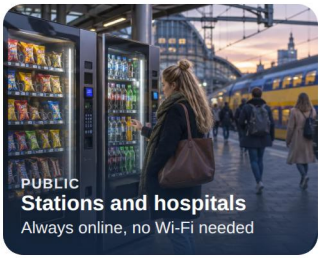












Manufacturer or supplier?

Refer your customers to Topcom Telecom. They get the SIM that suits your machine, even in small numbers, with personal advice.

No site Wi-Fi needed

The machine connects by itself over the mobile network. No hassle with passwords or firewalls at offices, schools or stations.

BUNDLES AND PRICES

Data per machine, or shared in one pool

Price per SIM per month, including the €0.50 subscription. Valid in 11 countries on multiple networks.

50 MB Basic telemetry and fault alerts	**€0.59**

TECHNOLOGY AND MANAGEMENT

Built for thousands of machines

One SIM for your whole production or fleet. The portal shows usage and status per machine.

NETWORKS

Strongest network

KPN, Odido and Vodafone in the Netherlands. If one drops out, the machine picks another.

TECHNOLOGY

2G to 5G

Global IoT also supports LTE-M and NB-IoT, for low-power modems.

MANAGEMENT

One portal

Usage per SIM, set data limits, switch SIMs on or off.

Remote access to the machine

With a static public IPv4 address from €5.50 per month (FloLive) or a private APN, your service team reaches the machine securely.

Payment module in the machine

Do you use a payment module from a payment provider? Check first whether it allows an external SIM. We are happy to help.

SIM 3-in-1 · eSIM with FloLive · Data limit per SIM · Routers on request · Cancel monthly
