## Turf Production Field Worker

Reports to: Clint Keeven

Hours: 40-50 hours per week, Spring-Fall

General Description: We are looking for a highly motivated field worker for the position of turf production field assistant. In this role, you will be asked to support a wide range of turf production tasks.

Responsibilities:

- Assist in irrigation practices – center pivots & hose reels.
- Help harvest turf when needed (big roll machine).
- Be able to fill in multiple areas of turf production like mowing and loading trucks with forklift.
- Assists with keeping the shop and equipment in order by sweeping, picking up trash, washing equipment, and other tasks needed to keep buildings in order.
- General grounds upkeep by mowing, trimming, landscape care, and other tasks needed to keep grounds in order.
- Stacking pallets to feed harvest machine.
- Preparing any equipment or tools needed for sod production.

Requirements:

- Experience in a similar role is not necessary.
- Exceptional ability to handle a fast pace environment.
- Physical able to handle working outside in extreme weather conditions.
- Good physical condition and able to lift up to 75 pounds.
- Attention to detail.
- Excellent communication.
- Good organizational skills.
