

ISO 9001 Lead

This interactive, live-online ISO 9001 Lead Auditor Training equips you with the knowledge and practical skills to conduct, manage, and lead audits with confidence. Recognized by [Exemplar Global](#), this course prepares you to interpret ISO 9001 requirements, assess compliance, and drive meaningful improvements in any organization.

Guided by expert instructors, you'll explore every phase of the audit process, including:

- Understanding ISO 9001:2015 requirements and quality management principles
- Audit planning, scheduling, and preparation
- Conducting opening and closing meetings
- Reviewing documentation, records, and processes
- Interviewing auditees and gathering objective evidence
- Identifying and reporting nonconformities
- Implementing corrective actions and follow-up procedures

This hands-on ISO 9001 lead auditor training program is designed to actively involve and equip participants with essential auditing skills. By engaging in real-world exercises, role-playing activities, and in-depth case studies, you will enhance your grasp of auditing concepts while gaining the confidence to implement them successfully in any environment.

WHO SHOULD ATTEND

- Quality Managers
