

SUBJECT TRIAGE

When everything is due and you don't know where to start

- 
- three subjects open
 - due tomorrow
 - another big one next week
 - you're just... stuck.

Step 1 – What will hurt you first

Not what feels urgent.
What actually has consequences.

- ✓ due tomorrow
- ✓ marks attached
- ✓ late penalties

Start there. →

Step 2 – What actually counts

Not everything carries marks.
Some things matter more.

- ★ tests
- ★ assignments
- ★ anything being assessed

- 
- Today - BIO test
✓ counts ★★ 50%
 - Essay due next week
✓ counts 20% Plan can wait

That's where your energy goes.

Step 3 – What can wait (and that's okay)

This is the part no one says out loud.

- ✓ can be late
- ✓ can be half done
- ✓ can be skipped

You are not doing everything tonight.

You are choosing what gets done.

Not forever.
Just for now.

What you pick is what moves.
Everything else waits.
