

ISTITUTO STOMATOLOGICO TOSCANO

Fondazione per la Clinica, la Ricerca e l'Alta Formazione in Odontoiatria
ADVANCED POSTGRADUATE DENTAL EDUCATION IN ITALY
A gateway to international postgraduate collaboration

About Istituto Stomatologico Toscano (IST)

Located in Tuscany, Italy, the Istituto Stomatologico Toscano is a recognized center of excellence dedicated to Dental Education, Clinical Practice, and Scientific Research. Since its foundation, IST has served as a training hub for hundreds of professionals, combining academic rigor with hands-on clinical immersion.

With a strong international orientation, IST offers a stimulating environment where experienced faculty and innovative methodologies converge to shape the next generation of oral health experts.

Clinic – Advanced patient care in modern facilities

Research – Active scientific innovation and clinical studies

Education – Postgraduate professional programs

Academic Excellence with UniCamillus University- International Medical University

In partnership with UniCamillus – International Medical University in Rome – IST designs and delivers high-level postgraduate programs that meet the standards of the European Higher Education Area. UniCamillus is a university specialized in health and medical sciences, with a strong international mission and a specific commitment on training professionals for global healthcare needs.

This partnership ensures the following benefits:

- Accredited Master's programs with ECTS credits
- Integration of clinical and academic expertise
- A shared vision for accessible, high-quality education

Program Format and Structure

The international master's programs offered through this partnership are designed to be flexible and accessible to professionals already involved in clinical practice.

Key features include:

BLENDED LEARNING

A combination of:

- Online theoretical modules
- Live interactive webinars
- Hands-on clinical training
- One final intensive on-site session in Italy (Tuscany and Rome)

TARGET AUDIENCE

Dental and medical professionals holding a postgraduate degree (EQF Level 7 or equivalent), seeking advanced specialization in the field of dentistry.

LEARNING OBJECTIVES

- Master advanced techniques and technologies in implantology and related disciplines
- Develop critical thinking, diagnostic accuracy, and interdisciplinary planning
- Promote ethical and culturally sensitive approaches to patient care in diverse healthcare systems
- Prepare for leadership roles in clinical practice, academia, and research

INTERNATIONAL FACULTY

The teaching body includes leading experts from Italy and abroad, ensuring academic rigor and diverse clinical perspectives.

Italian Masters

- Master di 2° livello in Chirurgia Orale e Implantologia Avanzata
- Master di 2° livello in Direzione Sanitaria e Risk Management in Odontoiatria (FAD)
- Master di 2° livello in Implantologia Orale
- Master di 2° livello in Odontoiatria Legale e Forense
- Master di 2° livello in Tecnologie Avanzate della Ricostruzione Ossea
- Master di 2° livello in Odontoiatria Digitale
- Master di 2° livello in Implantologia Cone-Morse e Bi-Conometria
- Master di 1° livello in Trattamento Parodontale Non Chirurgico
- Master di 1° livello in Igiene e Prevenzioni Orali in età pediatrica
- Corso di Perfezionamento in Piezochirurgia

International Masters

- 2° level International Master in Oral Implantology
- 2° level International Master in Advanced Implantology
- 2° level International Master of Surgery in Implant Dentistry
- 2° level International Master in Oral Surgery and Implantology
- 2° level International Master in Implant Dentistry
- 2° level International Master in Clinical Periodontology
- 2° level International Master in Orthodontics
- 2° level International Master in Advanced Surgical Extraction and Implantology
- 2° level International Master in Digital Dentistry

Educational Programs Overview

A modular and comprehensive approach to advanced implantology.

BASIC KNOWLEDGE

Foundation of biology, diagnosis and surgical planning.

- Jawbone morphology & healing
- Surgical anatomy & hygiene
- Radiological diagnostics
- Implant planning & design
- Guided surgery introduction
- First surgical stage (hands-on)
- Insertion torque & intraoperative management

SOFT TISSUES – HEALTH AND AESTHETICS

Mastering the biological and aesthetic integration of soft tissues.

- Peri-implant soft tissue morphology & biology
- Smile design & emergence profiles
- Uncovering surgery planning
- Aesthetic surgery of marginal tissues
- Peri-implantitis: management & prevention
- Practical exercises on models

ADVANCES IN IMPLANT PRACTICE

Expanding surgical skills for complex implant cases.

- Bone grafts & substitutes
- Guided Bone Regeneration (GBR)
- PRF: the evolution of platelet concentrates
- Sinus lift & split crest techniques
- Immediate post-extraction implants
- Immediate loading protocols

PROSTHETICS ON OSSEOINTEGRATED IMPLANTS

From data collection to aesthetic prosthetic delivery

- Implant-prosthetic connections
- Digital & analog impressions
- Prosthesis design & fabrication
- Prosthetic installation & maintenance
- Management of prosthetic complications

NOTE: THE IMPLANTOLOGY PROGRAM SHOWN IS AN EXAMPLE.
IST AND UNICAMILLUS CAN **DEVELOP TAILORED POSTGRADUATE MASTER'S PROGRAMS** ON ANY DENTAL TOPIC TO SUIT SPECIFIC NEEDS.

TRAINING THE NEXT GENERATION OF IMPLANTOLOGY EXPERTS

Saint Camillus International University of Health and Medical Sciences (UniCamillus)

UniCamillus is a private Italian university exclusively dedicated to Health and Medical Sciences. It is part of the national university system and issues legally recognized degrees.

- Approved by the Italian National University Council (CUN) on June 20, 2017
- Accredited by ANVUR on September 5, 2017
- Officially established by the Ministry of Education on November 28, 2017, and published in the Official Gazette on January 4, 2018

About the Collaboration

Since 2019, UniCamillus and the Istituto Stomatologico Toscano have worked together to develop and deliver advanced postgraduate programs in dentistry and medical sciences, combining academic excellence with clinical expertise.

Program Delivery Formats

- In-person format: for students based in closer regions, with on-site sessions at IST spread across the academic year.
- Hybrid format: for students from distant countries, combining online modules, a local in-person week (where feasible), and a final in-person session in Rome at UniCamillus for thesis defense and graduation.

Important Notes

- The awarded Second Level Master's Degree is legally recognized in Italy and Europe.
- The program grants 60 ECTS credits and corresponds to EQF Level 8.
- Admission typically requires a long-cycle degree (e.g. in Dentistry or Medicine).
- These postgraduate degrees belong to the third cycle of academic education under the European Higher Education Area (EHEA).

DEGREE FRAMEWORK & RECOGNITION

In accordance with the **Bologna Process and the European Higher Education Area (EHEA)**, university education in Italy is structured in three cycles:

- **First Cycle** – Corresponds to a 3-year Bachelor's Degree (EQF Level 6)
- **Second Cycle** – Typically includes a 2-year Master's Degree (EQF Level 7), or long-cycle degrees in Medicine and Dentistry (5-6 years)
- **Third Cycle** – Comprises doctoral programs (PhD) and postgraduate Master's degrees of the second level, recognized as EQF Level 8

The Second Level University Master offered through the collaboration between UniCamillus and the Istituto Stomatologico Toscano falls under the **third cycle** of academic education. It is designed for professionals who already hold a university degree equivalent to a Doctor of Medicine or Doctor of Dental Surgery, and aims to deepen clinical expertise and specialization. This type of master's program grants **60 ECTS** credits and is officially recognized within the European academic framework as a postgraduate qualification above the Master's Degree, but distinct from a PhD.

FROM THEORY TO PRACTICE...

Training with Impact

Hands-on Sessions

Real-time practice with innovative tools

International Faculty

Lecturers and surgeons from leading institutions

Clinical Case Presentations

Direct connection to real-world scenarios

Group Interaction

Collaborative learning and peer-to-peer exchange
