Put your best stock forward

ABSS Premier automatically adjusts your inventory as you sell items. Unlike most other systems, it goes the extra mile by giving you the flexibility and freedom when working with inventory transactions as you can:

- Recall
- Edit
- Reverse
- Delete inventory adjustments and transfers

Powerful reporting options also allow you to easily reconcile your stock on hand with your inventory account for any given date. ABSS Premier also features a sophisticated pricing matrix with:

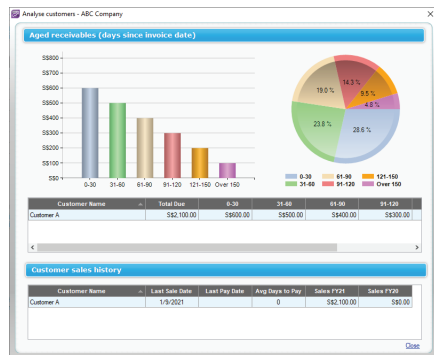

- Five quantity breaks and
- Six pricing level

This allows you to map out pricing and sale strategies based on customer status. If you sell items from different warehouses or hold stock in multiple locations, ABSS Premier helps you keep track of items quantities held at each location.

Analyse business in more than 200 ways

Make informed decisions based on accurate and detailed information:

- Over 200 flexible reports and charts.
- Assess up-to-date Profit and Loss Statements and Balance Sheets.
- Produce comprehensive reports and send to Microsoft® Excel for further analysis.
- Email reports to your accountants.
- Use inbuilt Data Auditor to detect common processing errors and to ensure integrity of your business information.
- View screen-optimised or print-preview versions of each report.
- Analyse sales by salesperson, track where sales are coming from, and identify customers who owe money, stay on top of outstanding invoices and more.

Record foreign currency transactions

Transact, record & track in multiple currencies. ABSS Premier is designed for small to medium-sized businesses, looking to grow and transact internationally. Trade confidently and analyze the realized/unrealized exchange gains/losses at ease.

Perform a whole range of tasks in multiple currencies including:

- Sales and purchases transactions
- Customer and vendor payments
- General journal entries
- Cheques and deposits

Customise your reports and business forms

Redesign your invoices and statements – make them your own. Every business is unique. Your business forms are the public face of your company and ABSS Invoices and other forms can be completely customised. Choose from a wide range of data fields, add borders, background pictures, shading or coloured lines – in short create the perfect form for your business.

Need to keep track of your time?

ABSS Premier's time billing functions have been designed to work exactly the way you collect and bill your time:

- Track hourly and non hourly, chargeable and non chargeable activities
- Bill by employee, customer or activity rate
- Partially charge, write off time or defer your billing until next month
- Set up records for all the activities your company provides

Create invoices that automatically update with time slip details, present a standard activity description, and include stock items on the same invoice!

Malaysia SST features

SST Tax Codes

ABSS SST featured products incorporate all SST tax codes along with its rates. Once recorded, the system will automatically process the right values for the relevant transactions.

Tariff Codes / Service Types

ABSS SST featured products enable user setup of tariff codes and able to track supplies made/services rendered for each tariff code item.

SST-02 Report

SST-02 Report generated by ABSS software provides necessary information which helps users to submit their SST returns effortlessly. It covers both sales tax and service tax.
