VOLLEYSTATION INFORMATION

This year, our event(s) will use the digital scorekeeping app [VolleyStation Score](). You may have seen or used the app at a previous event. If you've *never* used VolleyStation Score before, you'll find it very intuitive and easy to understand. If you *have* used the app before, you may want to check out the resources listed below to refresh your memory before arriving at our event.

Please send this out to your coaches and teams participating in this year's regional championships.

The Region will be providing tablets for each table to use the VolleyStation app. We still recommend downloading the app for practice and in case our tablet fails and a backup is needed. The team will need to provide for a work crew: One (1) Adult R2 if one is not provided, Two (2) Line Judges, Two (2) Scorers (One for VolleyStation and one keeping a paper backup scoresheet), and One (1) Visual Scorer. If you are in a five team pool on two courts you will need to provide a work team for both courts. If needed, a junior can R2 if no second adult is available and a minimum of two scorers and two line judges for each court. The paper score backup can do the visual score as well.

We want to ensure that you and your team feel prepared and comfortable with VolleyStation Score, so we are providing the resources below for you to review before the start of play.

You can download VolleyStation Score using the appropriate app store for your device:

- [Apple App Store]()

- [Google Play]()

To help you be ready for our event, VolleyStation has created resources that walk you through the app.

You can access VolleyStation's educational resources using the links below.

- [YouTube Playlist]()

- [VolleyStation Score tutorial]() (slides)

Using VolleyStation Score at our event means there will be a website with live score updates for all matches. You will be able to follow the progress of any match in the event, which means you'll be able to check your court to see if it's running on time!

Our event's live scoring site is:

[iowa.volleystation.com]()

Our [Table FAQ document](#) is designed to guide novices around VolleyStation Score and/or remind previous users of how to use the app.

Our [Five Most Common Issues document](#) is intended to help scorekeepers recognize problems they may encounter.

In the past, parents and coaches have raised concerns about data privacy regarding the use of VolleyStation Score, and we are ensuring that the app does NOT collect ANY information from users.

If you have any question please reach out.
