TM2Sign Team Import Instructions

To import your USAV Team(s) from SportsEngine:

1. From your Club Dashboard, select "Teams"

2. Click on the Action button > "Import my USAV teams from SportsEngine"

3. Season and credentials will be displayed.

4. Select "Import" to complete the request.

Your USAV Club Code and USAV Region Code will be used to import your teams and default rosters from USAV MMS (SportsEngine). You can manage these settings on the "Edit Club" page.

- Team names will automatically be prefixed with your club alias.

- Any pre-existing teams (by USAV codes) will be updated in place.

- Imported rosters will appear as the default roster on the Team Dashboard
