LAKES & FISHING

The resort boasts three sparkling lakes nestled amid forested hills, offering a scenic hub for water-based recreation and quiet reflection. ORCHARD & GARDENS

“*Peach n’ Perfect*”

Rooted in 2022, our Transvalia peach and Nectarine orchard stands as a symbol of excellence and abundance. Proudly producing 50 tonnes annually, it is widely regarded as home to the finest Transvalia peaches and nectatrines in Zimbabwe. This thriving orchard not only delivers premium fruit but also creates meaningful employment for the local community—blending agricultural success with social impact.

ORCHARD & GARDENS

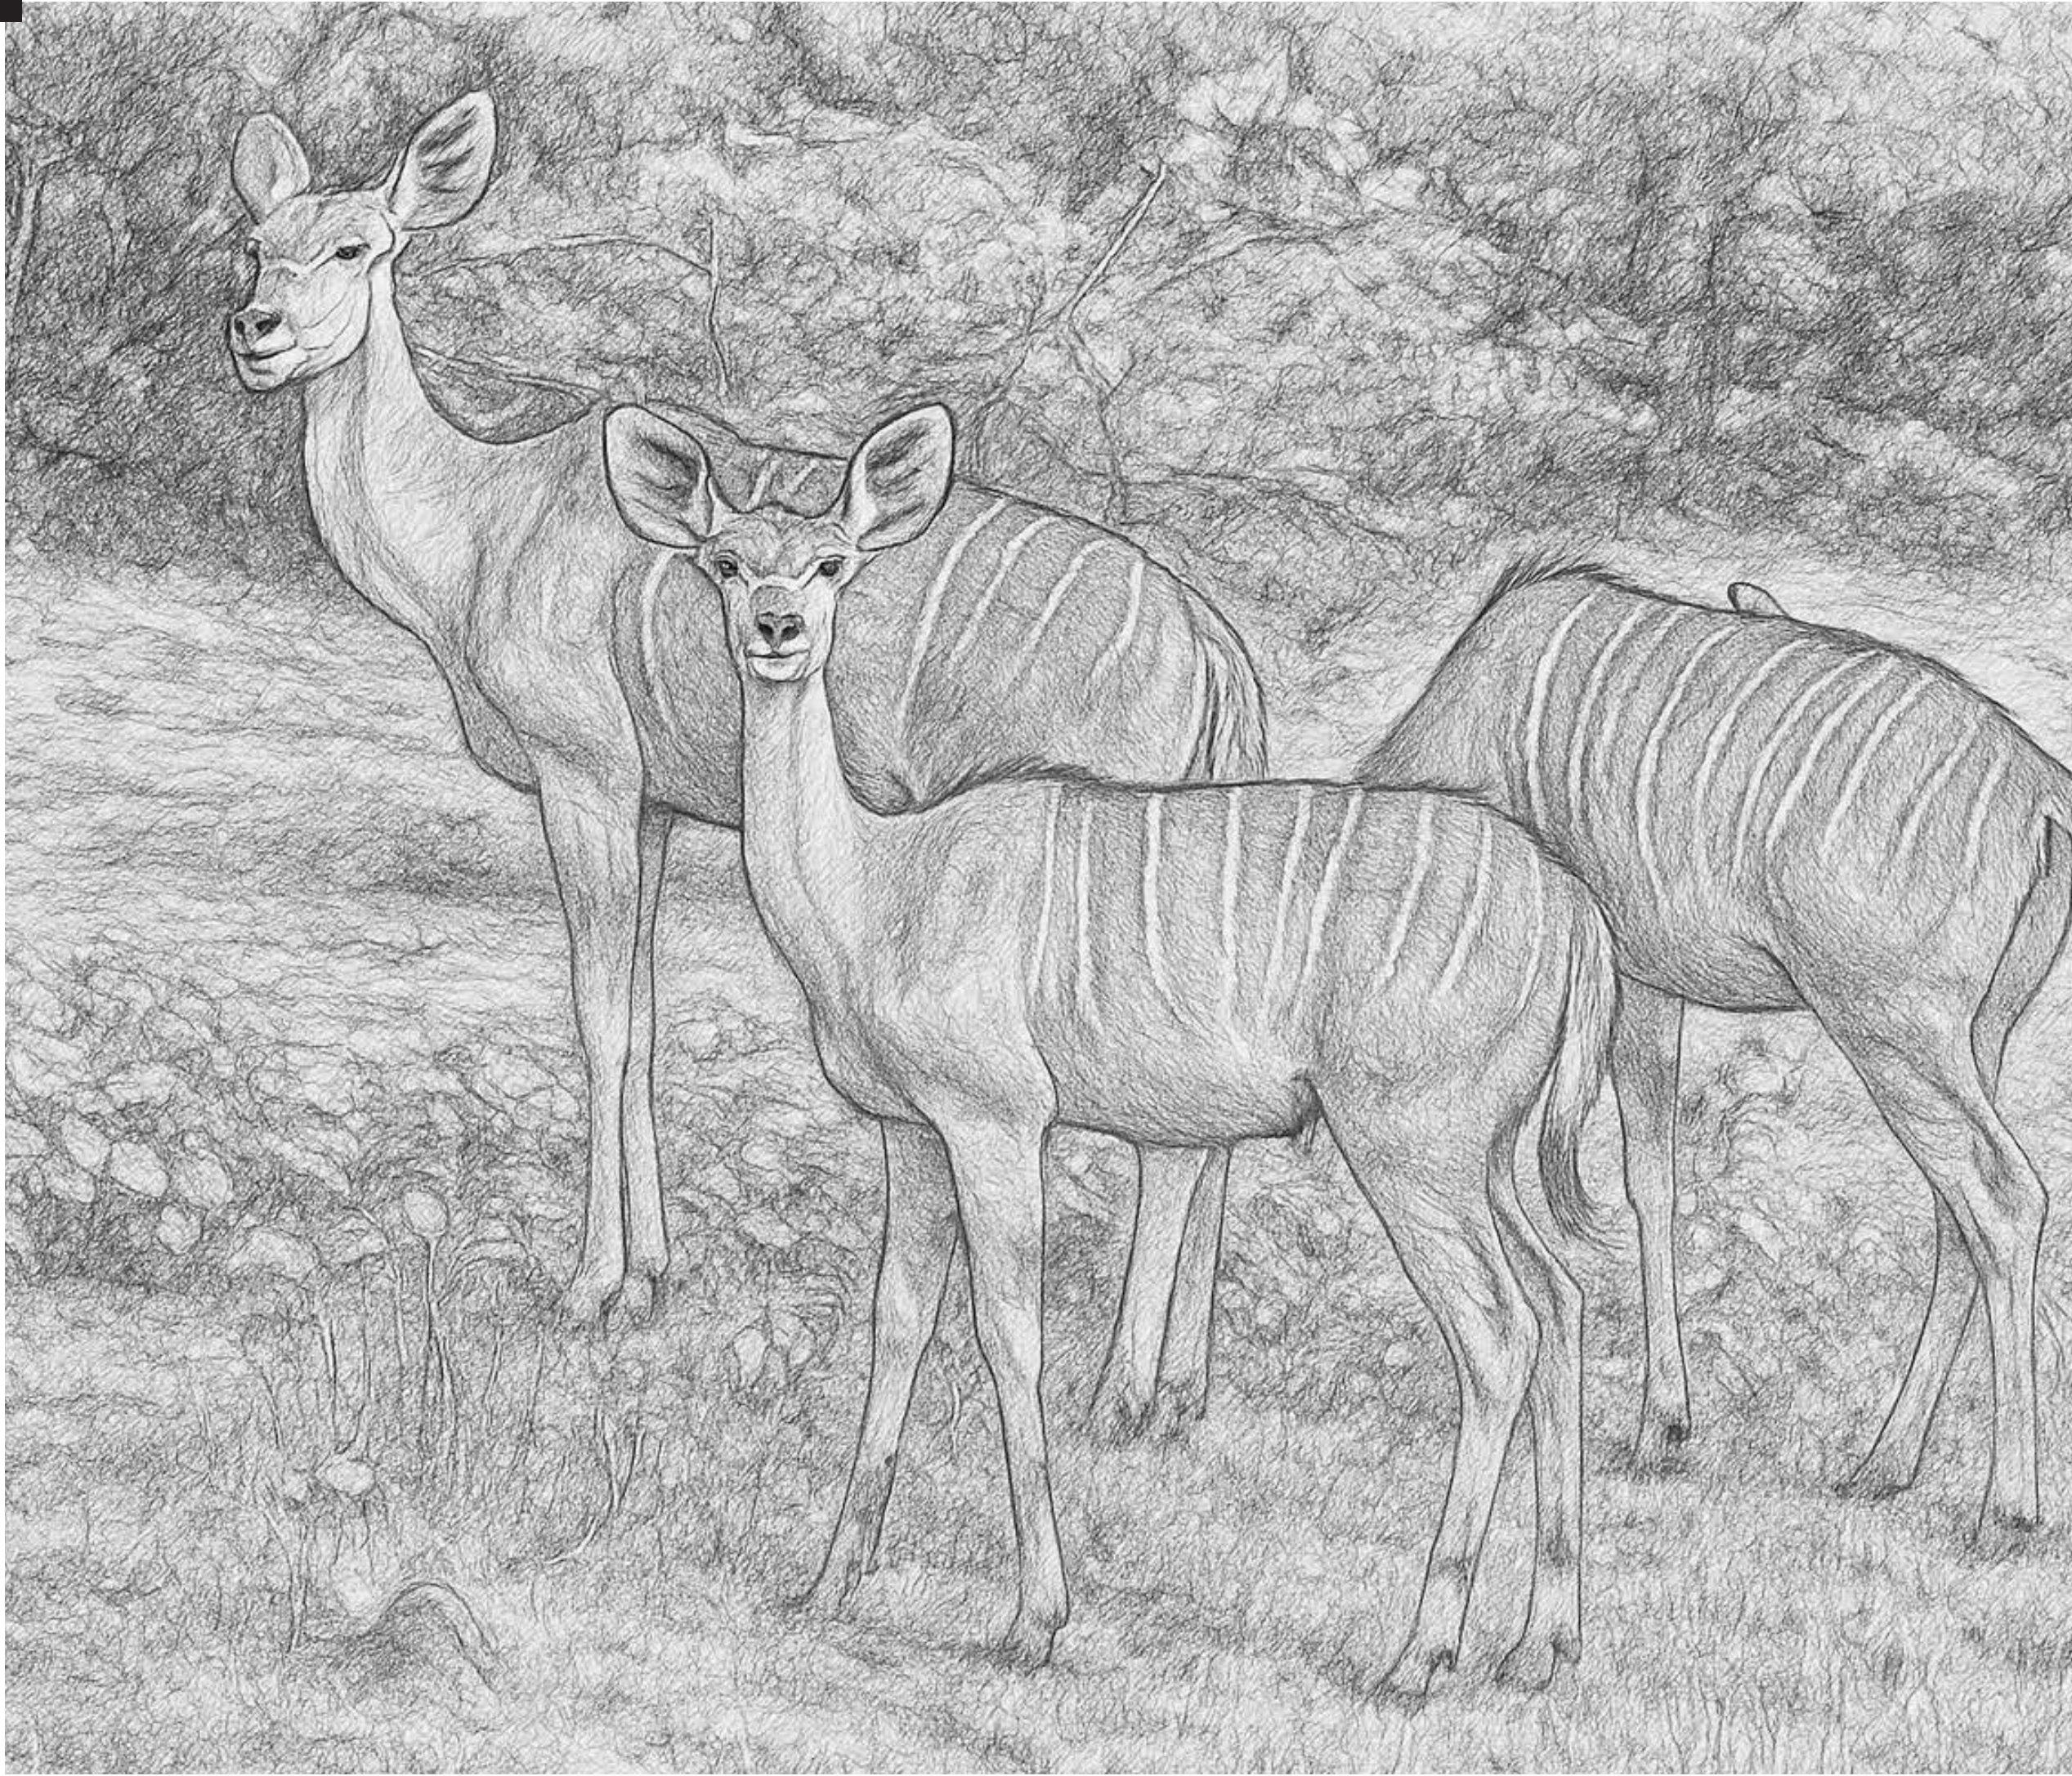

The resort’s 10,000-tree orchard is a living landscape that changes with the seasons and delights the senses year-round. Whether it’s walking among pink and white blossoms in spring or picking ripe apples, peaches, or apricots in late summer, guests can enjoy hands-on experiences with nature and food. Guided orchard tours, led by an expert horticulturist, introduce the various fruit varieties grown on-site and share insights into sustainable, organic farming practices. Guests are welcome to taste fruits straight from the tree—an experience that’s fresh, flavorful, and surprisingly nostalgic.

ORCHARD & GARDENS

The orchard's bounty influences the resort's day-to-day luxuries: fresh juices for breakfast, tangy preserves at afternoon tea, and natural fruit-based scrubs and masks in the spa. Winding paths reveal fountains, lily ponds, and flowering gardens where guests might encounter butterflies, hummingbirds, or the occasional peacock. The lush environment encourages everything from meditation to photography, offering a peaceful connection to the land in every direction.

“Timmon, Pumba & Friends”

In 2025, our animal sanctuary was born from a deep commitment to restore life and hope to the scarce wildlife of this beautiful region. Rescued from overpopulated areas across Zimbabwe, each animal was given a second chance to thrive in a safe, nurturing home. Beyond conservation, the sanctuary serves as a heartfelt space for the community and visitors to connect, learn, and be inspired by the powerful bond between nature and humanity.

WILDLIFE & BIRD SANCTUARIES

At Mountain Lakes Resort, wildlife conservation and viewing go hand-in-hand, thanks to a sprawling sanctuary where animals roam freely within protected bounds. This dedicated area of rolling grasslands and wooded groves offers a safe haven for antelope, zebra, warthogs, and other gentle indigenous species. Guests can explore the sanctuary via guided nature walks or a more adventurous 4x4 safari drive, both of which provide excellent opportunities to spot these creatures in their natural environment.

A key highlight is the birding sanctuary, which includes a serene wetland area and bird hide perfect for quiet observation. Birdwatchers—both novice and experienced—can join early morning or twilight birding tours led by the resort's expert naturalist. With the help of field guides and binoculars, guests often spot dozens of species, from vibrant kingfishers and songbirds to majestic herons and fish eagles. The experience is both calming and exhilarating, especially when rare birds emerge.

WILDLIFE & BIRD SANCTUARIES

Near the sanctuary entrance, a kid-friendly petting area allows younger guests to safely engage with tame animals like deer, bunnies, and goats under staff supervision. Beyond formal tours, the entire resort teems with life—monkeys swing in trees, peacocks strut through the orchard, and birdsong enhances the natural ambience. It's a perfect blend of relaxation, education, and wildlife immersion.
