MINIMUM SERVICES

The Minimum Services charge represents the minimum non-declinable services required to facilitate the disposition of a deceased person, whether by cremation, burial or entombment.

This minimum service charge is applicable to every family we serve and includes transferring the deceased from the place of death (or Coroner's Office, hospital, airport, etc.) to our holding room, where the deceased will be placed in a casket of your choosing and securely held until the necessary documentation is completed for cremation, hydrolysis/aquamation, burial or entombment, as applicable. Once the required documentation is ready (i.e. death has been registered and if applicable, the coroner's certificate for cremation has been obtained), the deceased is transported in a service van to the cemetery, crematorium or hydrolysis/aquamation facility at the earliest practical opportunity or at a scheduled time, as applicable.

Additional fees may apply for mileage beyond 20 km and for pallbearers (burial only).

ADDITIONAL SERVICE OPTIONS

We offer the following additional services, which are optional:

Additional body preparation services

It is our policy that human remains be identified whenever possible. The identification may be made by anyone who knew the deceased, including a relative, friend, neighbour, co-worker, or clergy person. While identification of a body is possible with the minimum required preparation, you may wish to consider opting for "basic preparation of remains" or embalming, as it might afford a more peaceful final viewing experience. Embalming is not legally required, but may be recommended to preserve the body between the time of death and final disposition. One of our funeral directors will be able to guide you on preparation options and make recommendations based on the condition of the body and the expected service needs.

Visitation

These are informal gathering periods that allow family and friends to come and pay their respects and offer comfort to a grieving family. Suggested visiting hours are 2-4 and 6-8 pm.

Funeral services or celebrations of life

This includes services, rites and ceremonies with the body present in a casket. A funeral service can be religious or non-denominational and can be held in various places, including in our chapel, at a place of worship, a venue such as a club or hall, or at the graveside.

Receptions

We offer a beautiful facility in which families may gather and receive guests for a luncheon after the funeral or memorial service. Our reception room accommodates up to 75 people.

CASKETS

The following caskets listed are those generally available. Additional options are available upon request. Unless otherwise noted, all caskets listed are standard adult size.

Minimum requirements for a casket:

For burial: The least expensive wood casket or a veneer particle board casket with a cloth covering is suitable and is required by most cemeteries' by-laws for interment, in the interest of the health and safety of the workers involved in the interment process. A metal casket may also be used for burial. A growing number of cemeteries in Ontario offer "green" burials, which may consist of interment of a body without a casket. Since there is no legal definition for a "green" burial, it varies from one cemetery to another. For more information, please speak with one of our funeral directors, or visit www.greenburialcanada.ca.

For cremation: A body must be presented to the crematorium in a rigid, leak-proof casket that is made of a combustible material, such as wood or cardboard. Caskets containing non-flammable, hazardous material or chlorinated or fibre-reinforced plastic, other than incidental metal, cannot be used for cremation. We offer a selection of inexpensive caskets below that are suitable for cremation.

For hydrolysis: A casket is not used for hydrolysis (also known as "aquamation"). In some circumstances, a hydrolysable container or shroud may be required. For more information on this alternative method of disposition, please speak with one of our funeral directors, or refer to the [Bereavement Authority of Ontario's Consumer Information Guide](#).

A cemetery operator may designate a specific area in the cemetery where vaults or grave liners are required; however, the operator must have another area where vaults or grave liners are not required, so that consumers have a choice. LICENSED SUPPLY

Any licensed funeral service establishment accepting a casket or any licensed supply from a third party does take a risk should that product fail in some or any capacity. It is the feeling of Duffus Funeral Home Limited that it would reflect poorly on the licensed operator and establishment. Such an instance would damage the reputation and integrity of the licensed operator and the funeral establishment; it could also NOT be interpreted as the family's choice of product. For these reasons, we the Duffus Funeral Home Limited elect **NOT** to accept a supply from a third party and we feel the liability issue is far too great in doing so.

PAYMENT, FINANCING & FUNDING

For services at time of death:

A deposit of 50% of the funeral contract and the entire amount for the disbursements is required at the time of the arrangements. Balance owing is due within 15 days of signing the contract, beyond which interest will be charged at a rate of 2%, which is equivalent to 24% per annum (APR). Payment may be made by cash, cheque, bank draft or e-transfer. Payment plans are also available to meet most budgets. Financing charges apply to payment plans. For non-sufficient funds cheques returned to the funeral home there is a surcharge of \$95 plus 13% HST for each returned cheque. If an issued refund cheque is lost and needs to be replaced there is a fee of \$95 plus 13% HST to stop payment on the original cheque and re-issue a replacement cheque.

Financial assistance for funeral, burial and cremation services is available through various governmental agencies, to those who qualify.

Pre-payment in advance of need:

For services that are being arranged pre-need, we offer two funding options when prepaying services or supplies:

Trust: You pay for the services and supplies at today's price and we will place your money in a trust account, where it will accrue interest until the prepaid contract is fulfilled (when the services and supplies are delivered). Pre-payment can be made by cash, cheque, or pre-authorized chequing. Funds are held in the purchaser's name.

Insurance: You may purchase an insurance or annuity policy through us, where the proceeds of the insurance / annuity policy will be used to pay for the services or supplies at the time they are delivered. Payment may be made by cash, cheque, or pre-authorized chequing for single payments. Time payment plans may be made by pre-authorized chequing. The policy is held in your name and assigned to the funeral home. Terms and conditions and cancellation policies are set by the Insurance Company.

Guarantee: When paid in full in accordance with the payment terms set out in the prepaid contract, the prepaid contract is guaranteed. The total payment(s) made plus interest / growth earned will be applied to the future price of the services and supplies. If the total payment(s) plus interest / growth earned are insufficient to cover the total future price of the prepaid services and supplies, we will absorb the difference as a loss. Any funds in excess of the total future price of the prepaid services and supplies will be returned or applied toward additional services, supplies and disbursements purchased at the time of need, as applicable. Conditions apply. Any changes to the prepaid contract may result in the prepaid contract being null and void and a new contract being executed with current pricing at the time changes are made.

Additional information about payment, financing and funding options is available upon request.
