

Severity	Meaning No harm Minor injury small bruise, scratch, graze Injury:	Likelihood	Meaning
0	Bruises, small cut Larger injury: concussion, large cut, serious	0 1 2 3 4	Impossible
1	burns Very serious injury: Broken bone, loss of limb or potential	5	Very slight chance of occurrence
2	death Death		Low chance of occurrence
3			Moderate chance of occurrence
4			Frequent chance of occurrence
5			Definite chance of occurrence

If injury does occur Camp Glide has a first aid policy which will be implemented. Camp Glide has trained first aid personnel on site at all times.

Risk Assessments 13/09/2024

What are the hazards?	Who is at risk	Harm that might occur	Probable Severity	Control Measures in place	Probable likelihood	Are increased control measures necessary?	Probable likelihood after additional controls	Action by:	Action to be completed by	Reviewed
Indoor play										
Slips, trips and falls	Staff, children and visitors	Bruises, scratches minor cuts if they trip over objects or slip on spillages	1	We carry out general good housekeeping. All areas are well lit including stairs. There are no trailing leads or cables. Staff keep work areas clear, e.g. no boxes left in the way, equipment is stored when not in use. Staff are to assess suitability of an area before use. If area is not suitable the area must be sectioned off and made safe before it is used.	2	No				Next holiday or whenever necessary
Moving and using equipment	Staff, children and visitors.	Back injury from lifting. Equipment may fall on someone	2	Staff supervise children at all times. Staff are trained in moving equipment i.e. how to carry and how many people are needed to help. Large equipment will be moved when children are not present. Equipment is stored away from the children and is stored safely. Staff are to assess circumstances before moving equipment.	2	No				Next holiday or whenever necessary
Electrical sockets	Staff, children and visitors	Electrocution	4	Staff supervise children at all time. Sockets are covered so young children can't put fingers in them.	1	No				Next holiday or whenever necessary
Small toys	Children	Swallowing toys	3/4	Staff supervise children at all time. Children are given instructions about how to appropriately use toys.	1	No				Next holiday or whenever necessary
Furniture	Staff, children and visitors	Body injury from falling furniture	2	Staff supervise children at all times. Furniture is assessed for its safety before each use. Children are given instruction about how to appropriate use furniture.	2	No				Next holiday or whenever necessary
Arts and crafts materials	Staff, children and visitors	Reaction to an art material such as paint or glue etc	2	Information is collected on staff and children's allergies before. First aid trained personnel are always on site. Children are supervised at all times. Art materials are stored appropriately with staff access only.	1	No				Next holiday or whenever necessary
Doors	Children	Trapped fingers	1	Children are supervised at all times. Most doors have finger guards.	1	Finger proof all doors	1	school	On going	Next holiday or whenever necessary
Cables and wiring	Staff, children and visitors	Tripping on cables	1	Cables and wires are kept out of the way. Children are supervised at all times.	2	No				Next holiday or whenever necessary
Sharp corners	Staff, children and visitors	Catching a sharp corner. E.g. drinking fountain.	2	Children are supervised at all times. High movement activities are done well away from sharp corners. Where possible the sharp corner will be removed or covered up.	2	Remove sharp corners	1	school	On going	Next holiday or whenever necessary
Music	Staff, children and visitors	Volume damaging ears	1	Music volume is controlled.	1	No				Next holiday or whenever necessary
Exhaustion	Staff, children	People feel ill because they are no energy to play	1	Staff supervise children and make sure they take regular breaks, drink plenty of water and take food on board if needed. Children and staff will never be denied access to water and are able to take a break if required.	2	No				Next holiday or whenever necessary
Kitchen	Staff, children	Knives, ovens and other equipment. Cuts, Burns body	3	Kitchen will always be locked. Staff will supervise children at all times.	1	No				Next holiday or whenever necessary

Risk Assessments 13/09/2024

		injury								
Plant room and chemical store	Staff, children	Chemicals and large equipment. Body injury.	3	Plant room and chemical store will always be locked. Staff will supervise children at all times. Site manager has COSHH assessments on all chemicals stored. Site manager or appropriate alternative available at all times.	1	No				Next holiday or whenever necessary
Children becoming unsupervised	Children	Child becoming unsupervised	4	Staff to child ratios are maintained. Staff are strategically placed to ensure appropriate cover of areas in use. Staff to check and ensure that school premises are locked to prevent people coming in unauthorised or children leaving the premises. If gates are unlocked Camp Glide staff are to ensure an appropriate adult is monitoring the gate to ensure only authorised entries and exits.	1	No				Next holiday or whenever necessary
Outdoor play										
Slips, trips and falls	Staff, children and visitors	Bruises, scratches minor cuts if they trip over objects or slip on spillages	1	We carry out general good housekeeping. All areas are well lit including stairs. There are no trailing leads or cables. Staff keep work areas clear, e.g. no boxes left in the way, equipment is stored when not in use. Staff are to assess suitability of an area before use. If area is not suitable the area must be sectioned off and made safe before it is used.	2	No				Next holiday or whenever necessary
Moving and using equipment	Staff, children and visitors.	Back injury from lifting. Equipment may fall on someone	2	Staff supervise children at all times. Staff are trained in moving equipment i.e. how to carry and how many people are needed to help. Large equipment will be moved when children are not present. Equipment is stored away from the children and is stored safely, tables and mats are stored on racks, cupboards are available to store other equipment away from used areas. Staff are to assess circumstances before moving equipment.	2	No				Next holiday or whenever necessary
Doors	Children	Trapped fingers	1	Children are supervised at all times. Most doors have finger guards.	1	Finger proof all doors	1	school	On going	Next holiday or whenever necessary
Wildlife	Staff, children and visitors	Insect bites, possible allergies to animals and plants.	2	Information is collected on staff and children's allergies before. First aid trained personnel are always on site. Children are supervised at all times. Children are instructed in boundaries.	1	No				Next holiday or whenever necessary
Wildlife	Staff, children and visitors	Larger wildlife attacks	3	The premises are fenced off. Children are supervised at all times. If a danger is present the emergency action plan is implanted.	1	No				Next holiday or whenever necessary
Climbing frame	Staff, children	Body injury from falling or getting caught in climbing frame	2	Children are supervised at all times and are given clear instruction about how to use equipment safely. Equipment is designed especially for children's use. Parts of the equipment swing. Children are to be kept away when other children are using the equipment in line with the health and safety policy.	2	No				Next holiday or whenever necessary
Sun burn	Staff, children and visitors	Skin UV burn from sun	1	Staff remind and assist children with putting on sun cream if appropriate. Children are reminded to reapply cream. Parents are reminded to provide sun cream for their children.	2	No				Next holiday or whenever necessary
Exhaustion	Staff, children	People feel ill because they are no energy to play	1	Staff supervise children and make sure they take regular breaks, drink plenty of water and take food on board if needed. Children and staff will never be denied access to water and are able to take a break if required.	2	No				Next holiday or whenever necessary
Hypothermia	Staff, children	People get to cold	1	Staff supervise children and make sure they are warm and appropriately dressed. Staff assess condition for their safety. If conditions worsen then they will take children inside.	1	No				Next holiday or whenever necessary

Risk Assessments 13/09/2024

Sand pit	Staff, children	Sand in eyes	1	Staff supervise children. The sand pit is off limits to children. Staff are appropriately trained to provide first aid.	2	No				Next holiday or whenever necessary
Children becoming unsupervised	Children	Child becoming unsupervised	4	Staff to child ratios are maintained. Staff are strategically placed to ensure appropriate cover of areas in use. Staff to check and ensure that school premises are locked to prevent people coming in unauthorised or children leaving the premises. If gates are unlocked Camp Glide staff are to ensure an appropriate adult is monitoring the gate to ensure only authorised entries and exits.	1	No				Next holiday or whenever necessary
Tree Climbing	Children, Staff	Falls from Height from tree, Person below tree being injured because of a person or equipment falling from above. Children becoming snagged in tree via clothing or equipment	4	Staff to talk to children regularly about risks when climbing trees and how this can be managed. Topics to cover (not exhaustive): How high to climb, which trees are safest to climb, other people in and around the tree, good climbing techniques, what to do if stuck Children to only climb trees when staff are present to supervise. Clear instructions given to all children by staff Children to remove any loose clothing. Children only to climb trees up to the height of their shoulders when stood on the ground. OR as high as they are comfortable getting down, whichever is lower. Debris around bottoms of trees to be cleared when climbing. Children not to climb with any play equipment. (use of safety equipment when available is encouraged) Trees to be assessed regularly for their suitability to climb. Staff members to indicate to children unsafe climbing trees. Dynamic risk assessment to be carried out: taking into consideration weather conditions, ground conditions changes to tree Adult ratio to be kept at all times Children supervised effectively	1	No				Next holiday or whenever necessary
Pirate ship	Children/Staff	fall from height Sand in eyes Bumps	4	Children given instructions on safe play i.e. not to throw sand where children can be. Children in KS2 can play on all parts of equipment. Children in KS1 in sand only Gazebos to be secured to ground appropriately taking use and weather conditions into account. Gazebo to be set up and put down with a minimum of 2 members of staff	1	No				Next holiday or whenever necessary
Gazebos	Children/staff	Blowing over	2	Gazebos to be stored securely away from children.	1	No				Next holiday or whenever necessary
Car park										
Cars	Staff, children and visitors	Pedestrians or other vehicles being hit by a moving car	4	Speed limits are in place in the car park. There is a marked crossing for pedestrians. There are marked bays for cars to park in. The car park is well lit when in use. Children are in the care of their parents until they have signed in the school office.	1	No				Next holiday or whenever necessary

Risk Assessments 13/09/2024

Slips, trips and falls	Staff, children and visitors	Bruises, scratches minor cuts if they trip over objects or slip on spillages	1	Areas are kept clear of trip hazards. Surfaces are kept even so far as is practical. Drainage systems clear away water and other fluids.	1	No				Next holiday or whenever necessary
Arts and Crafts										
Arts and crafts materials	Staff, children and visitors	Reaction to an art material such as paint or glue etc	2	Information is collected on staff and children's allergies before. First aid trained personnel are always on site. Children are supervised at all times. Art materials are stored appropriately with staff access only.	1	No				Next holiday or whenever necessary
Craft materials	Children	Swallowing beads, stickers paint brushes.	3/4	Staff supervise children at all time. Children are given instructions about how to appropriately use craft materials.	1	No				Next holiday or whenever necessary
Sports										
Slips, trips and falls	Staff, children and visitors	Bruises, scratches minor cuts if they trip over objects or slip on spillages	1	We carry out general good housekeeping. All areas are well lit including stairs. There are no trailing leads or cables. Staff keep work areas clear, e.g. no boxes left in the way, equipment is stored when not in use. Staff are to assess suitability of an area before use. If area is not suitable the area must be sectioned off and made safe before it is used.	2	No				Next holiday or whenever necessary
Moving and using equipment	Staff, children and visitors.	Back injury from lifting. Equipment may fall on someone	2	Staff supervise children at all times. Staff are trained in moving equipment i.e. how to carry and how many people are needed to help. Large equipment will be moved when children are not present. Equipment is stored away from the children and is stored safely. Staff are to assess circumstances before moving equipment. Use of equipment monitored by staff. Large/hard play equipment to be used in safe manner. i.e. large open spaces, only those engaged in activity participating. Staff supervise children at all times. Staff are trained how to lead activities and	2	No				Next holiday or whenever necessary
Contact	Staff, children	Body injury due to contact when playing sports	2	Staff supervise children and make sure they take regular breaks, drink plenty of enforce rules. Only sports where severity and/or risk is at a minimum will be played. Safety equipment is to be worn if necessary.	2	No				Next holiday or whenever necessary
Exhaustion	Staff, children	People feel ill because they are no energy to play	1	Staff can engage in sports to demonstrate good practice and for the children's water and take food on board if needed. Children and staff will never be denied access to water and are able to take a break if required.	2	No				Next holiday or whenever necessary
Staff engagement	Staff, Children	Sports injury	2	enjoyment. Staff realise they are bigger and stronger than children and play at an appropriate level to the children are with. Staff not to take shots during football sessions while a child is in goal.	1					
Lun ch										
Slips, trips and falls	Staff, children and visitors	Bruises, scratches minor cuts if they trip over objects or slip on spillages	1	We carry out general good housekeeping. All areas are well lit including stairs. There are no trailing leads or cables. Staff keep work areas clear, e.g. no boxes left in the way, equipment is stored when not in use. Staff are to assess suitability of an area before use. If area is not suitable the area must be sectioned off and made safe before it is used.	2	No				Next holiday or whenever necessary
Moving and using	Staff, children	Back injury from lifting. Equipment	2	Staff supervise children at all times. Staff are trained in moving equipment i.e. how to carry and how many people are needed to help. Large equipment will be moved	2	No				Next holiday or whenever

Risk Assessments 13/09/2024

equipment	and visitors.	may fall on someone		when children are not present. Equipment is stored away from the children and is stored safely. Staff are to assess circumstances before moving equipment.						necessary
Furniture	Staff, children and visitors	Body injury from falling furniture	2	Staff supervise children at all times. Furniture is assessed for its safety before each use. Children are given instruction about how to appropriate use furniture.	2	No				Next holiday or whenever necessary
Food allergies and choking	Staff and children	Allergic reactions and choking	4	Information is collected on staff and children's allergies before. First aid trained personnel are always on site. Children are supervised at all times. Children and staff never share food. Children wash hands before and after eating.	1	No				Next holiday or whenever necessary
Cleaning	Staff and children	Chemical reaction associated with mild cleaning chemicals	2	Staff supervise children at all times. Children do not have access to cleaning chemicals. PPE is used when using cleaning chemicals.	1	No				Next holiday or whenever necessary
Swimming										
Slips, trips and falls	Staff, children and visitors	Bruises, scratches minor cuts if they trip over objects or slip on spillages	1	We carry out general good housekeeping. All areas are well lit including stairs. There are no trailing leads or cables. Staff keep work areas clear, e.g. no boxes left in the way, equipment is stored when not in use. Staff are to assess suitability of an area before use. If area is not suitable the area must be sectioned off and made safe before it is used. A no running policy will be in place in the pool area. Other safety rules will be in place.	2	No				Next holiday or whenever necessary
Moving and using equipment	Staff, children and visitors.	Back injury from lifting. Equipment may fall on someone	2	Staff supervise children at all times. Staff are trained in moving equipment i.e. how to carry and how many people are needed to help. Large equipment will be moved when children are not present. Equipment is stored away from the children and is stored safely. Staff are to assess circumstances before moving equipment.	2	No				Next holiday or whenever necessary
Contact	Staff, children	Body injury due to contact when playing in the pool	2	Staff supervise children at all times. Staff are trained how to lead activities and enforce rules. Only games where severity and/or risk is at a minimum will be played. Safety equipment is to be worn if necessary.	2	No				Next holiday or whenever necessary
Exhaustion	Staff, children	People feel ill because they are no energy to play	1	Staff supervise children and make sure they take regular breaks, drink plenty of water and take food on board if needed. Children and staff will never be denied access to water and are able to take a break if required.	2	No				Next holiday or whenever necessary
Drowning	Staff, children	Children may drown in the swimming pool.	4	A NPLQ Lifeguard will always be present when the pool is in use. Legal requirements and procedures will be followed when the pool is in use. Children will have the rules clearly explained to them before using the pool. Rules will be enforced. Children will take a swim test before the swimming session is fully open. Other staff will be present and a ratio of 1:8 will be maintained. Children are assessed for their swimming ability before open use. <u>Plant room and chemical store will always be locked. Staff will supervise children</u>	1	No				Next holiday or whenever necessary
Plant room and chemical store	Staff, children	Chemicals and large equipment. Body injury.	3	at all times. Site manager has COSHH assessments on all chemicals stored. Site manager or appropriate alternative available at all times.	1	No				Next holiday or whenever necessary
Changing	Staff and children	Abuse	2	Staff will supervise children at all times. Staff are safeguard trained. Child protection policies apply. Staff to stand in areas where they can supervise all children. Changing rooms designed so there are no spaces where supervision can't take place easily.	1	No				Next holiday or whenever necessary
Visibility	Bathers	Potential not to see bathers while in pool	4	NPLQ Lifeguard to follow NOP and EAP, Lifeguard to suitably assess where they can see all of the pool taking into account glare, reflection and water clarity. If no	1	No				Next holiday or whenever

Risk Assessments 13/09/2024

				suitable area is available the swimming session must end immediately.						necessary
Pool shape	Bathers	Potential not to see bathers, swimmers out of depth	4	NPLQ lifeguard to situate themselves where they can see all of the pool to the bottom. Lifeguard to manage behaviour and set limits for swimmers based on their ability. Lifeguard to be aware of NOP and gradient of the pool including its depth.	1	No				
Over crowding	Bathers	Potential not to see bathers in distress	4	Registers to be taken when entering the pool. Maximum numbers of bather set out in pool NOP. Entry points to the pool controlled by staff members.	1					
Cleaning										
Chemical	Staff	Chemicals coming into contact with staff members and causing a reaction	2	PPE will be used whenever using potentially dangerous chemicals. Any spillages will be isolated and cleaned appropriately. Chemicals will be stored appropriately and access will only be given to those that need it. A further COSHH assessment is carried out for every chemical substance used.	2	No				Next holiday or whenever necessary
Slips, trips and falls	Staff, children and visitors	Bruises, scratches minor cuts if they trip over objects or slip on spillages	1	We carry out general good housekeeping. All areas are well lit including stairs. There are no trailing leads or cables. Staff keep work areas clear, e.g. no boxes left in the way, equipment is stored when not in use. Staff are to assess suitability of an area before use. If area is not suitable the area must be sectioned off and made safe before it is used. Warning signs will be put up to denote slippery surfaces.						
Moving and using equipment	Staff, children and visitors.	Back injury from lifting. Equipment may fall on someone	2	Staff supervise children at all times. Staff are trained in moving equipment i.e. how to carry and how many people are needed to help. Large equipment will be moved when children are not present. Equipment is stored away from the children and is stored safely. Staff are to assess circumstances before moving equipment.	2	No				Next holiday or whenever necessary
Medication and first aid										
Misuse of medication	Staff, children and visitors	Wrong administration of medicine. Children getting their hands on medication. people under the influence of medications or drugs.	3	Medication administration forms are filled in to provide consent and a administration procedure. Staff are fully trained to administer medications. Medications are kept in a locked cupboard and are only accessed when necessary. Staff are trained in safeguarding and anyone under the influence of drugs or medicine will have safeguarding procedure implemented on them. Appropriate PPE may be used when administering medication and first aid	1	No				Next holiday or whenever necessary
Bouncy Castle										
Bouncy Castle deflating	Staff Children	Child becoming stuck	2	Bouncy castle is checked for its safety by a qualified safety officer. Bouncy castle is set up in accordance with manufacturers instructions. Bouncy castle is secured to the ground to stop it from moving. The inlet tube is secured tightly, The outlet tube is secured tightly. 2 members of staff are always supervising the bouncy castle. An area is set out where personnel are not to go into while castle is in use.If bouncy castle starts to deflate children are to leave the area immediately.	2	No				Next holiday or whenever necessary

Risk Assessments 13/09/2024

Bouncy Castle	Staff, Children	Children Fall from height or Bump into each other.	4	Only 6 children are allowed on the bouncy castle at a time. The bouncy castle is always supervised by 2 adults. Cash mats are placed around the entrance of the bouncy castle and are constantly monitored. Children are given clear instructions not to climb the bouncy castle or jump on the step. During set up children are kept clear and while in use any children not using the bouncy castle are kept at a safe distance. Bouncy castle is given an inspection before every use and is stored appropriately away from children. Routine safety inspections and maintenance is carried out.	1/2	No				Next holiday or whenever necessary
Bouncy castle electric fan	Staff children	Limbs in fan, Electrocutation	4	Fan is tested for its safety. Area cordoned off to stop unauthorised personnel having access. Bouncy castle is supervised by 2 adults while in use.	0.1	No				Next holiday or whenever necessary
General										
Stranger on site	Staff, Children, Public	Stranger causing harm	0-5	Site is kept secure at all times. Staff are trained on site safety and must challenge any persons on site if they are unsure about their authorisation. Children to staff with staff throughout the day. Visitors must be authorised and sign in. Children not to touch site perimeter i.e. fences. Children not to engage with people outside of site. i.e. talking through fences. Lock down procedure implemented if stranger poses a threat to those on site.	0-1	No				Next holiday or whenever necessary
Weather conditions	Staff, Children, Public	Lightning strike, sun burn, high winds	0-5	Children to dress appropriately for all weather conditions. Children to have sun protection on if it is a sunny day. Children and staff to seek shelter should outside weather conditions become too adverse for safe play. During a thunderstorm children will leave the pool and outdoor areas until the storm has passed.	0-4	No				Next holiday or whenever necessary
COVID-19 risk assessments										
COVID-19 Virus entering the site	Children, Staff	Contracting COVID-19	0 - 4	Parents/carers are not invited into the setting and must wait outside when dropping and collecting children. Encouraging one parent/carer to drop off or collect child. Visitors must be kept to a minimum and only for essential purposes. Staff members hand over children outside the setting All families and staff are told to stay away from the setting if they have the COVID-19 or symptoms of COVID-19 Staff members encouraged to participate in Government LFD testing scheme – twice weekly. Staff to update Andy and respective school via email.	1	No				Next holiday or whenever necessary

				Staff members told to self isolate while being tested and after subsequently testing positive for COVID-19 in line with government guidance Children excluded from the setting if they have symptoms of or have tested positive for COVID-19 in line with government guidance. Cooperate with test, track and trace if a positive case has been present at a Camp Glide setting. Temperatures taken if a suspected fever is present in any individual. Parents/carers encouraged to social distance outside the setting 2 meter markers available Children physically separated from other bubbles during the session						
Spreading infection of COVID-19 within the setting	Children, Staff	Contracting COVID-19	0 - 4	Supervision and monitoring of high traffic areas, i.e. toilets and corridors to ensure minimal cross contamination No mixing of children between bubbles Staggered snack times if possible Bubble sizes based on government guidance. Use of one-way systems where available to avoid contact with other people. Staff to follow the signage as well as school and management instruction. Social distancing within bubbles as much as is practical Minimising sharing of equipment Equipment not shared between bubbles unless quarantined or cleaned in line with government guidance on cleaning Staff members to stay with bubbles and avoid physical contact with children Have smaller activities, to try and limit time spent in one place Where staff members cross bubbles maximum social distancing must take place i.e 2 meters distance, minimal periods of time, full PPE if distancing cannot be maintained, no physical contact Children to wash hands on arrival and frequently throughout the day. Drying hand using clean/disposable towels or hand dryers. Staff to wear their own clothes Children encouraged to wear clean uniform each day. Soft toys removed from the setting Good respiratory hygiene taught and encouraged at all times	1	No				Next holiday or whenever necessary

Risk Assessments 13/09/2024

				Indoor spaces separated and no mixing. Use the outdoor areas as much as possible keep doors and windows open to improve ventilation If a positive case, infected area cleaned in line with government guidance Regular cleaning of the setting including cloak facilities, toilets and frequently used equipment and door handles Temperatures taken if symptoms of COVID-19 are suspected child sent home immediately Ensure staff know who to report to should there be a problem or if they are feeling anxious Staff / visitors to wear a face covering when in communal areas of the building / site. Staff may be permitted to remove face covering when they are in their own bubble and not moving around the site. Keep staff up to date with government guidelines All staff to follow COVID-19 procedures Walking, cycling, own transport advised as preference.						
Spread of virus on arrival and departure	Staff, Children, Parents/Carers, Visitors	Contracting COVID-19	0 - 4	Parents enter through main gate and into the car park. Signage will remind parents to social distance. Camp Glide to encourage one parent/carer to drop off or collect a child. No parent/carer to enter the building 2m markers used for parents waiting to drop off or collect Information sent to parents to aid with expectations. No visitors on site unless absolutely necessary. Visitors screened with questions and temperatures. Their details taken in addition to normal procedures for test, track and trace. One way system through school upstairs corridor and down stair corridor.: Whole bubbles use one way system Individuals to walk freely with social distancing	1	No				Next holiday or whenever necessary
Reducing mixing and bubbles	Staff, Children	Contracting COVID-19	0 - 4	Bubbles to be organised by year group, Sometimes multiple year groups will be in a wrap around bubble. Minimising the amount of year groups in a bubbles where possible. - Bubbles - Bubbles of no more than 15 children to be separated into different bubbles – using separate areas/toilets.. Separate spaces in school halls, and designated classroom/s	1	No				Next holiday or whenever necessary

Risk Assessments 13/09/2024

				Spaces within hall to be divided with physical barrier and distance Each bubble to have separate toilet cubicle and sink Separate playground / outdoor space for each bubble Separate entry and exit point for each bubble Resources not to mix between bubbles unless cleaned and quarantined for 72 hours. Minimise staff mixing as much as possible						
Virus spread through resources	Staff, Children	Contracting COVID-19	0 – 4	Separate resources for each bubble Resources cleaned each day Easy clean resources and surfaces Soft toys removed Equipment quarantined for 72 hours before redistribution Children's Toilets: All classes allocated an individual cubicle (no boy/girl separation).	1	No				Next holiday or whenever necessary
Virus spread through poor hygiene	Staff, Children	Contracting COVID-19	0 – 4	Clean down toilets through session as necessary. Adults to use allocated toilet: downstairs corridor toilet, Wash hands upon arrival. Wash hands before and after eating. All handwashing facilities with soap, hot water, paper towels. Toilets, common area touch plates, handles and switches cleaned during day by Premises Staff and before and after school by Camp Glide staff Teaching good respiratory hygiene. i.e. catch it bin it kill it Cleaning to have contact and touch points focus. Camp Glide staff to clean setting before use. Camp Glide to clean areas after breakfast use. School cleaning staff to clean after end of day use. Meeting room used for temporary isolation. This must be cleaned in line with government guidance after use.	1	No				Next holiday or whenever necessary
Risk of virus spreading if suspected case in school	Staff, Children	Contracting COVID-19	0 – 4	Supervisory staff to wear full PPE	1	No				Next holiday or whenever necessary

Risk Assessments 13/09/2024

				Parents / carers informed and to collect immediately. All areas and resource individual may have come in contact with cleaned in line with government guidance If a staff member develops symptoms they will be sent home immediately. The areas they have used and any equipment they have been in contact with will be cleaned in line with government guidance. Anyone with a suspected case will be told to get a test and self isolate. Camp Glide will communicate with the individual (or parents/carers) once per day until the outcome of the case is confirmed. Camp Glide will work with the school and test, track and trace in the event of a positive case of COVID - 19						
First aid administration. Risk of close contact	Staff, child	Contracting COVID-19	0 – 4	Staff to wear PPE for any treatment given to a casualty where 2m distance cannot be observed. PPE to be discarded safely after use and hands washed thoroughly after treatment given. Should CPR be required no further action needs to be taken other than to monitor for symptoms for 14 days. Ensure the space where treatment is given is well ventilated Simple first aid kit for each bubble Any bodily fluids are to be cleaned in line with Health and safety policy. Full PPE to be used for cleaning. Staff member (floating if appropriate) to be 12 hr paediatric trained to oversee all first aid. If casualty is unwell with suspected COVID symptoms they must be isolated in the designated location. Consult government guidance for the up to date guidelines. In the event of an emergency that would mean moving around or exiting the building social distancing measure may be ignored and will not be a priority.	1	No				Next holiday or whenever necessary
Emergency present. i.e intruder, fire etc.	Staff, child, visitor	Contracting COVID-19	0 – 4	Staff to follow normal emergency procedures. Parents/carers to be informed via a phone call if necessary. Camp glide to continue to recruit in line with our safer recruitment policy. It will not be possible for interviews to happen in close contact with children. Normal safeguarding procedures to be followed	1	No				Next holiday or whenever necessary
Safeguarding considerations and COVID	Staff, child, visitor	Person a risk of abuse or neglect	0 – 4	Issues surrounding COVID-19 i.e. seeking medical attention, taking preventative	1	No				Next holiday or whenever necessary

			measures, self-isolation etc. are recognised as important for a child’s safety and wellbeing. Camp Glide staff will know to be aware of such issues. Any concern that could be considered abuse or neglect must be passed to the DSL. Camp Glide DSL to seek further advice from local safeguarding board if necessary. All Staff must read and follow lone working policy if they are working alone. All staff aware of the DSL phone number if they need to report a concern.
