St. Louis, MO – May 24, 2023 – Better Family Life, Inc. is thrilled to announce its successful selection for funding in the St. Louis County Children's Service Fund for the 2023-2026 cycle. This marks our seventh consecutive cycle of funding, a testament to our commitment to serving the St. Louis community and our dedication to supporting the mental health and well-being of children, youth, and families.

The St. Louis County Children's Service Fund plays a crucial role in empowering organizations like Better Family Life to provide essential services to the children and families of our community. As a recipient of this funding, we will continue to implement and expand our comprehensive mental health services, focusing on children, youth, and young adults, with a holistic approach that encompasses the entire family unit.

Better Family Life understands the critical impact that mental health has on the development, stability, and overall success of children and families. Through the generous support of the St. Louis County Children's Service Fund, we will be able to enhance and expand our existing programs and initiatives to address the evolving needs of our community.

Our mental health services will include a wide range of evidence-based interventions, including individual and group counseling, trauma-informed care, life skills training, and specialized programs tailored to the unique needs of different age groups. By focusing on prevention, early intervention, and ongoing support, we aim to equip children and families with the tools and resources they need to thrive.

"Receiving funding from the St. Louis County Children's Service Fund for another cycle is an honor and a responsibility we do not take lightly," said Darryl G. Grimes, CEO of Better Family Life, Inc. "We remain committed to providing comprehensive, accessible, and culturally competent mental health services to the children, youth, and families of St. Louis. This funding enables us to continue making a positive and lasting impact on the lives of those we serve."

In addition to our mental health services, Better Family Life will continue to collaborate with local schools and community organizations to provide educational workshops, parenting support groups, and outreach activities aimed at fostering resilience, emotional well-being, and healthy family dynamics. We extend our deepest gratitude to the St. Louis County Children's Service Fund for their continued belief in our mission and for their unwavering support. Together, we can create a stronger, healthier, and more vibrant St. Louis community.
