## TUNE UP PLUS

Protect your heating system with our Tune Up Plus Extended Coverage. Tune Up Plus provides an annual tune up of your oil-fired heating system, which includes cleaning and vacuuming of heat exchanger surfaces, cleaning the oil burner, and replacing the necessary parts (nozzle, oil filter, pump strainer). We will also test and tune the burner for maximum efficiency.

Keep the coverage going with access to our 24/7 Emergency Service line, and enjoy 20% off all repairs completed during regular business hours.

**\$129/year**

\*plus tax

## SERVICE PLAN A

Service Plan A provides an annual tune up, which includes cleaning and vacuuming of heat exchanger surfaces, cleaning the oil burner, and replacing the necessary parts (nozzle, oil filter, pump strainer). We will also test and tune the burner for maximum efficiency.

The plan also includes the repair or replacement of the following parts listed (including labor), at no additional cost to you:

Service Plans cover replacement parts for the main zone of the house, coverage for additional zones may be purchased for \$15 each.

**\$199/year**

\*plus tax

## SERVICE PLAN C for Oil Fired Water Heaters

Service Plan C includes an annual tune up of the water heater, which includes replacing the necessary parts (nozzle, oil filter, pump strainer) as well as testing and tuning the burner for maximum efficiency.

The plan also includes the repair or replacement of certain parts on the water heater, including the oil burner, relief valve, smoke pipe, and controls (including labor) at no additional cost to you.

Service Plan C does not provide coverage for the water tank.

**\$79/year**

\*plus tax

## TERMS & CONDITIONS

**Automatic delivery by Town Oil Co is a requirement for acceptance of these plans with a minimum of 400 gallons per year.**

Service Plans are automatically renewed at the end of each 12 month cycle and may be canceled at any time. However, these plans cannot be pro-rated or refunded after 30 days, and refunded plan value will be reduced by retail value of any work performed under the plan. The quoted prices are for the ordinary residence or comparable size commercial installation, not to exceed 200,000 BTU, and costs of removing or replacing materials to gain access for servicing will not be assumed by Town Oil. Town Oil will repair or replace any parts covered by these plans, however, Town Oil will not be responsible for obsolete or unavailable parts or equipment no longer manufactured, but will supply new or rebuilt parts at the current rates. No heat conditions due to false failure such as blown fuses, tripped circuit breakers, switches in off position, or low water level in boiler are not covered by these plans and will be billed at the prevailing rate. Town Oil Company shall not be responsible for damage or losses resulting if the fulfillment of this agreement is delayed or prevented by wars, acts of God, strikes, unavailability of parts, transportation, or other conditions not within the company's reasonable control. Parts damaged as a result of abnormal conditions such as war, fire, floods, hurricanes, explosions, acts of God, or other conditions beyond the control of Town Oil Co., are not covered under these plans. Parts installed to improve the system which were not originally there, parts relating to air conditioning, and parts relating to outdoor temperature sensors are also not covered by these plans.

*Effective January 1st, 2024*
