STEP 1: Take a picture of your property.

STEP 2: Upload your image.

STEP 3: Find your perfect Sheffield Metals color!

* Textured SMP product (all other colors are low-sheen PVDF)

Oil canning is an aesthetic issue and is an inherent part of light gauge cold formed metal products. By using coil that has been processed properly, designing for thermal movement, following stringent specifications for installation and proper handling most oil canning can be minimized. Oil canning is not grounds for coil/panel rejection.

Crinkle Coat Colors have a chalk rating of 6 for horizontal installations and 8 for vertical installations (ASTM D-214) and a fade rating of 7.0 Hunter delta-E Units for horizontal installations and 5.0 Hunter delta-E Units for vertical installations (ASTM D2244).
