IMPORTANT INFORMATION

Please read the following updated Worker's Comp Policy
*Everyone should have received a document to be signed
with the new policy.*

Workplace Injury Reporting

Employees must report any workplace injury to KTI management immediately when the incident occurs. Workers' Compensation is taken very seriously, and all injuries must be handled properly and reported right away.

Injury Reporting Steps:

- 1. If the injury is life-threatening, call 911 immediately.**
- 2. Contact a manager as soon as possible (see contact list).**
- 3. Fill out the provided form in your permit books. Provide complete and accurate details regarding the incident, including the location, time, and nature of the injury.**

A manager will review the situation and determine the next steps. If medical treatment is needed, management and HR will direct the employee to an authorized clinic near their location.

We will no longer have shoes for crew any longer. We are looking for other alternative

SEVERE WEATHER

Please know that during any bad weather conditions, your safety comes first. If you need to pull over until the storm has passed or if weather conditions become severe, please do so. We would rather have you safe and delayed than risk your safety on the road. Always use your best judgment and communicate with dispatch/manager if conditions become unsafe.

Curtis Corner

Growth begins where comfort ends.

Comfort has never built champions.

It has never developed leaders, strengthened character, or prepared anyone for life's toughest moments.

Hardship does that.

That's why it's so important to challenge yourself every day. Do something that stretches you.

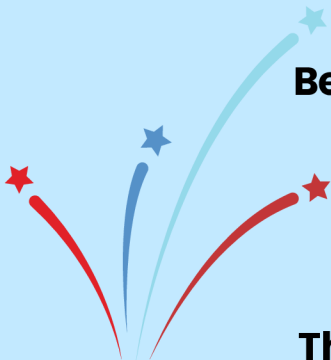

Something that makes you uncomfortable. Something that forces you to grow.

Because every challenge you embrace today prepares you for the opportunities you'll face tomorrow.

Don't run from the hard things.

Lean into them.

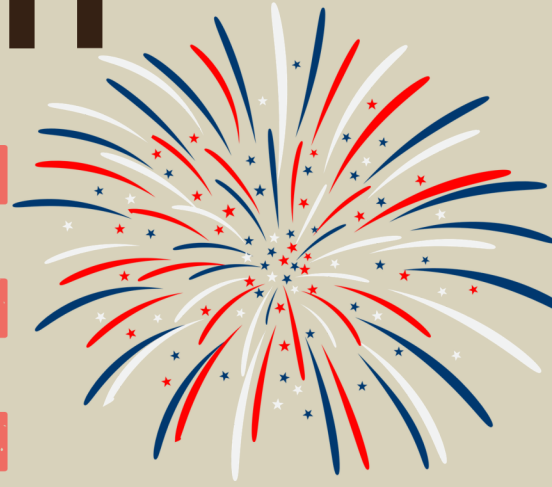

That's where you grow. That's where you evolve. That's where you Find A Way.
