

GLOBAL WILDLIFE
RESOURCES

BUFFALO/WILDLIFE HANDLING & CHEMICAL IMMOBILIZATION

Aaniih Nakoda College | Harlem, Montana
April 21-23, 2026

ABOUT THE COURSE

Global Wildlife Resources (GWR) is offering a special 3-day wildlife chemical immobilization course **April 21-23, 2026** (Tuesday–Thursday) at the **Aaniih Nakoda College in Harlem MT**. The course is **for tribal members and tribal college students by invitation only**. This course the most current & comprehensive chemical capture training in North America, with field-based instruction customized to the needs of participants. This course with **co-instructors Mark Johnson DVM (CEO, GWR) and Terry Lincoln (Director, Dakoa Zoo)** will **focus on buffalo chemical immobilization** with coverage of other wildlife species.

HANDS-ON LABS EACH DAY

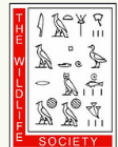

- **Drug Delivery Systems** - opportunity to practice the most effective projectors (dart guns)
- **Needle & Syringe Skills** - building professional habits for practical field use and human safety
- **Blood Collection Practice Station** - practice proper techniques for successful blood collection
- **Practice Immobilization Lab** - participants will chemically immobilize large show heifers
- **Final Lab** - participants will dart and chemically immobilize buffalo bulls
