

WILDLIFE HANDLING AND CHEMICAL IMMOBILIZATION

Fort Worth Nature Center, TX; Feb. 27-29, 2024

Global Wildlife Resources (GWR) is offering a **3-day Wildlife Chemical Immobilization Course** Feb. 27-29, 2024 at the **Fort Worth Nature Center and Refuge in Fort Worth TX**. This class is for state/federal/tribal wildlife professionals, college students, animal control officers, zoo & sanctuary caretakers, and exotic animal ranchers.

GWR is dedicated to supporting wildlife professionals with humane capture and handling through training & field assistance. This unique training focuses on the field-based needs for chemical immobilization of captive and free-ranging wildlife and *is the most extensive training you can receive in North America*.

HANDS-ON LABS EACH DAY

- **Chemical Immobilization** - participants immobilize live domestic goats which simulate deer
- **TPR Lab** - a practice lab with live animals to prepare for the chemical immobilization lab
- **Drug Delivery Systems** - opportunity to practice the most effective projectors (dart guns)
- **Needle & Syringe Skills** - building professional habits for practical field use and human safety
- **Blood Collection Practice Station** - practice proper techniques for successful blood collection

Course Content Includes:

- * **Drug Delivery Systems** * **Immobilizing Drugs** * **Drug Dose Calculations** *
- * **Five-Step Preparation for Field Operations** * **Legal Responsibilities** *
- * **Patient Monitoring** * **Sampling** * **Veterinary Emergencies** *
- * **Euthanasia** * **Human Safety** * **Post Capture Assessment** *

GWR courses are the most current and extensive training in North America and are often profound personal and career experiences for course participants.

GWR courses build confidence, increase field success, and strengthen resumes!

This Course Provides CE Hours For:

Ecological Society of America Certification

The Wildlife Society Professional Development Program

RACE Approved for Veterinarian and Veterinary Technicians

The course is limited to 30 participants *so register early!* It includes labs each day, course notebook, and Certificate of Training. Each day is 9am-5pm. The 3-day course fee is \$785 general/ \$550 for university students (full-time) / \$550 Refresher fee (for those who have taken GWR courses before). Places are reserved once payment is received.
