

Fall Newsletter 2026

Happy Early Fall from the team here at SilverBlade Lawn and Landscape. We hope everyone has had a great spring and summer so far. As always we would like to thank everyone who has used our services this season and we look forward to continuing servicing your properties.

Projects last call

As summer begins to wind down we would like to take the opportunity to mention that this is a great time for any last minute Landscaping projects or cleanups. Rather its installing new rock or removing some old brush, we are more than happy to get started on your landscape project needs.

Fall Services

Fall Cleanups: Rather it's Leaves, brush or seasonal pruning we are happy to get your property cleaned up for winter. Feel free to reach out to us and pre book your service, that way all we have to do is get it scheduled when your yard is ready!

Irrigation Blow Outs: This year we are going to begin offering irrigation shut downs (blow outs). We will be completing these services within the first 2 weeks of October. If you are interested in this service please let us know so we can get you on our list for this fall

Snow Removal

Improvements: Last year we saw major growth to the snow removal side of our business. This growth was not without its learning curves. That being said we have a few important items we wish to share regarding service improvements:

- Plow scrape quality: This year we will be investing in better, newer plows allowing us to scrape driveways better leaving you with a cleaner result
- Staffing: This year we plan to hire more crew members, allowing us to get to your properties faster

Sign ups: If you are interested in snow removal this winter please contact us as soon as possible so we can reserve you a spot on our route as space is limited. Sign ups close October 30th.

Final Remarks

As always we would like to thank you for your business this season. We greatly appreciate everyone who has supported us throughout the years and look forward to continuing to service your properties!
