RUBBISH REMOVAL AND DISPOSAL

Rubbish removal and disposal is usually part of the normal scope of works at all our sites where we have Cleaners stationed to provide routine maintenance cleaning services. Such removal will be to the nearest common waste collection area; Eg – refuse chambers. In addition to that, some sites would require Gardening or Landscaping Services.

However, we also provide an ancillary service of complete waste management where we collect, remove and dispose rubbish away from the work site. Such rubbish may include dry office and/or household waste as well as wet waste from households, eateries, etc including the disposal of recyclable items.

Among the clients where Gardening/Landscaping and Waste Management Services are provided are;

MENARA PERSOFT
