# SAINTS AND OBSERVANCES

SOLEMNITY, FEAST, MEMORIAL • OPTIONAL MEMORIAL • OTHER

## 01 OCT (Wednesday):

**SAINT THERESE OF THE CHILD JESUS, Virgin and Doctor of the Church (1873-1897)**

Through her autobiography, *The Story of a Soul*, this Carmelite nun continues to teach millions to trust in the loving Fatherhood of God, and that sanctity lies not necessarily in doing great deeds, but in doing everyday deeds with great love.

## BLESSING OF THE ANIMALS

Within the octave of the feast day of **St. Francis of Assisi, Monday, 06 OCT 2025**, there will be a blessing of the animals at **08:00 AM**. The blessing will take place at **Nativity School**, 1250 Laurel Street, Menlo Park, on the school blacktop. All are welcome to bring their pets to be blessed.

## 04 OCT (Saturday):

**SAINT FRANCIS OF ASSISI, Deacon, Founder of the Three Orders (1181-1226)**

After a carefree youth, Francis underwent a profound conversion. He renounced his family wealth and moved to the outskirts of Assisi, practicing a life of prayer, simplicity, and poverty, and preaching the love of God to all. He showed particular care for the poor and the sick, and he delighted in all living creatures, whom he addressed as brother and sister. He attracted many followers, including **St. Clare of Assisi**, and their communities grew into the worldwide *Franciscan Order* of priests, nuns, and laity. Two years before his death, he received the stigmata, the climax of many supernatural events in his life.

Livestreaming of the  
Nativity Sunday Mass  
is now at **11:00 AM**

## Eucharistic Miracles

## Avignon, France

In Avignon, France, in **November 1433**, a small church run by the *Gray Penitents of the Franciscan order* was exhibiting a consecrated host for perpetual adoration. After several days of heavy rain, the Sorgue and Rhône rivers had risen to a dangerous height. On **30 NOV**, Avignon was flooded. The head of the order and another friar rowed a boat to the church, certain that their little church had been destroyed. Instead, they saw a miracle.

Although water around the church was four feet high, a pathway from the doorway to the altar was perfectly dry, and the sacred host was untouched. The water had been held back in the same way the **Red Sea** had parted. Amazed by what they had seen, the Friars had others from their order come to the church to verify the miracle. The news spread rapidly, and many townspeople and authorities came to the church, singing songs of praise and of thanks to the Lord. Still today, the Gray Penitent brothers reunite at the *Chapelle des Pénitents Gris* every November 30 to celebrate the memory of the miracle. Before the blessing of the sacrament, the brothers perform a sacred chant taken from the Cantic of Moses, which was composed after the parting of the Red Sea.

## Siena, Italy

In the **Basilica of San Francesco** in **Siena**, **223** consecrated Hosts have remained intact for over **280** years. on **14 AUG 1730**, thieves were able to enter San Francesco's Church in Siena and steal the chalice containing 351 consecrated Hosts. After three days, on August 17th, the 351 consecrated Hosts were found intact in the dust of the alms box of the sanctuary of Santa Maria in Provengano. The entire population celebrated the finding of the consecrated Hosts which were immediately taken back to the church of San Francesco in a solemn procession. With the passing of time the Hosts did not change in appearance. Many times, distinguished men examined them with every means available and the conclusions were always the same: *"The Sacred Hosts are still fresh, intact, uncorrupted, chemically pure, and do not present any sign of alteration"*.

In **1914**, **Pope St. Pius X** authorized a test which was attended by many professors of health, chemistry and pharmaceuticals, among whom was also the well-known Professor Siro Grimaldi. The final conclusion of the edited report of the test stated: *"The Sacred Hosts of Siena are the classic example of the perfect conservation of particles from unleavened bread, consecrated in the year 1730, and constitute a unique and most interesting phenomenon ... the laws of nature have been reversed."*
