

Park View Pediatrics

Questionnaire for PARENTS OF A TEENAGER!

Welcome to your Park View Pediatrics team. Thank you for entrusting your teen's health care with us. We value this partnership. We will be having your child complete their own survey but clearly value parents input as well. Although your teenager's answers are confidential, we ALWAYS encourage communication back to their parents who know and love them so much. Please take a few moments to answer the following questions.

Are there any specific concerns or problems you would like to discuss at this visit? _____

Have there been any changes or challenges at home we should know about? _____

Does your child see any other providers such as an herbalist, chiropractor, or other healer?	Yes	No
