

**NATIONAL ROOF
INSTITUTE**
OF AMERICA

BUILD A TRADE. BUILD A CAREER. BUILD YOUR FUTURE.

National Roof Institute is building pathways into the commercial roofing industry for individuals and communities across Tribal Nations.

◆ REAL SKILLS ◆ GOOD JOBS ◆ LASTING OPPORTUNITY

THIS IS MORE THAN LEARNING HOW TO ROOF.

Students can learn the skills, safety practices and real-world knowledge used every day in the commercial roofing industry. Commercial roofing can lead to many different career paths:

INSTALLATION

SERVICE

INSPECTION

ESTIMATING

SUPERVISION

PROJECT MGMT & OWNERSHIP

**TRAINING OPPORTUNITIES ARE NOW BEING DEVELOPED
WITH TRIBAL COMMUNITIES NATIONWIDE.**

Opportunity is a powerful thing.

IT BUILDS PEOPLE.
IT STRENGTHENS COMMUNITIES.
IT CREATES LASTING CHANGE.

National Roof Institute

Corpus Christi, TX 78408

A SKILLED TRADE CAN CHANGE THE DIRECTION OF A LIFE.

Across America, commercial buildings need skilled people who know how to install, maintain, inspect and repair roofing systems. National Roof Institute was created to teach those skills. We are reaching out to Tribal Nations and Native communities to help create new pathways into the commercial roofing industry for people who are ready to learn, work and build a career.

THE GOAL IS SIMPLE:

- 1 Train people for work.
- 2 Develop skilled tradespeople.
- 3 Create career opportunities.
- 4 Build skills that can be taken home and used in the community.

FOR TRIBAL LEADERS & WORKFORCE PROGRAMS

National Roof Institute welcomes conversations with Tribal Nations, workforce-development programs, employment organizations and community leaders interested in creating roofing and construction-training opportunities for their people.

We want to listen first, understand the needs of each community and build training opportunities that make sense.

LET'S TALK.

Together we can build opportunity for Tribal Nations.

YOUR NEXT CAREER MAY START ON A ROOF.
