The new generation NEXO

LIGHT YEARS AHEAD

POWER YOUR PROCESS – with the new NEXO cordless tool

The new NEXO nutrunner guarantees maximum freedom for use combined with highest process reliability and accuracy and fulfills all requirements for **safety-critical tightening connections according to VDI/VDE 2862.** You choose between **handheld pistolgrip and right-angle nutrunner**. You get intuitive, modern and user-friendly tools with significantly **improved ergonomics** and **increased flexibility** thanks to a browser-based operating system and integrated control on board.

ERGONOMICS - MORE COMPACT, LIGHTER, BETTER

- Lightweight and compact design with high efficiency components
- Use of ProCORE18V batteries for further weight savings
- LEDs on the base and tool body enable visual feedback to the user even in unusual postures

PERFORMANCE - MORE ACCURATE, MORE RELIABLE, SAFER

- Short charging time and battery replacement time
- Faster and better performance in setting up and parameterizing
- All information from the tool at a glance on the display
- Can continue to operate even in the event of a network failure
- Tool can remain in the assembly line during software updates
- No installation of additional software necessary - access also possible with tablet or smartphone
- No downtime for a battery change thanks to keep-alive function

BENEFITS

- High connectivity and network performance with **WiFi 6**
- **LARGEST** integrated **COLOR-DISPLAY** on the market
- **4-CORE PROCESSOR** for best-in-class performance
- Intuitive **browser-based software**
- **CAMERA BASED SCANNER** including QR- and Data Matrix code support
- Bosch **GYROSCOPIC SENSOR** for patented angle compensation
- Standard **18V Bosch ProCORE** battery with global availability
- Wide range of **ACCESSORIES**

TECHNICAL KEY DATA

- Pistol-grip up to 14 Nm
- Angle tool: 14, 28 and 60 Nm
- IP40 protection
- Ironless motor for high torque, rpm and improved dynamics while reducing the tools weight
