Manufacturer of cold formed parts and nuts

SCHUHL

CONNECTORS THAT DRIVE INNOVATION

SCHUHL
CONNECTORS THAT DRIVE INNOVATION

1. Presentation

As a family owned company with around 90 employees, we serve the automotive, electrical and electronics industries and their suppliers with nuts and cold formed parts for innovative connection technologies.

- manufacturer of cold forming parts
- manufacturer of quality nuts
- family controlled & owned company
- founded 1935
- certificated acc. to IATF 16949
- international customers

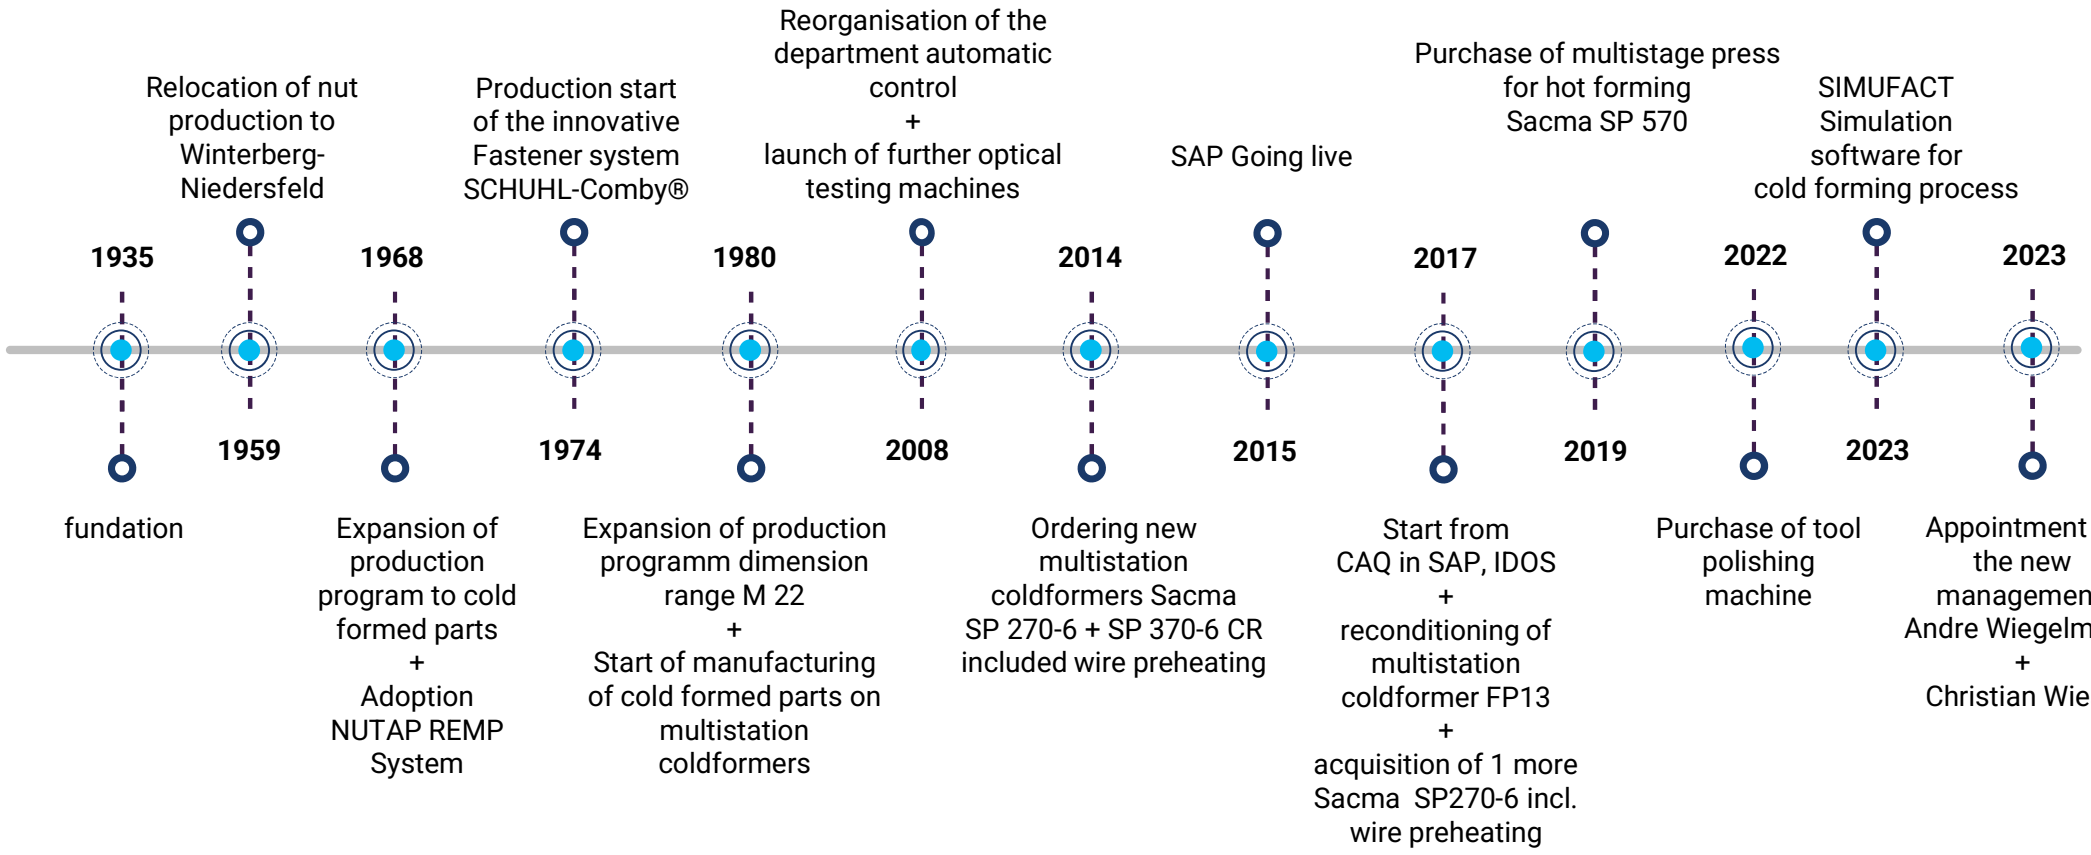

2. Key indicators

	2021	2022	2023
turnover	10,0 Mio. EUR	10,7 Mio. EUR	10,9 Mio. EUR
employees	80	83	84
new parts	35	43	56
investment	20.000 EUR	77.000 EUR	25.000 EUR
equity ratio	74%	75%	77%
rating	A-	A-	A-
export	25%	26%	25%

2. Key indicators

	production
wire diameter	Ø 3 – 27 mm
length	up to 160 mm
outer diameter	up to Ø 46 mm
material	steel, brass, copper, aluminium, titan, inconel, stainless steel

3. Our history

4. Core competences & industries

Individual nuts and cold formed parts are indispensable in a wide range of industries, from automotive to electrical engineering to mechanical and plant engineering.

- precisely manufactured cold formed parts
- inserts for plastic products
- custom made adapters
- highly specialized components
- efficiency and functionality in demanding industrial applications

automotive industry

machinery & plant eng.

electrical industry

tool industry

construction industry

plastics industry

5. overview products

variety of standard solutions:

standard and standard-like parts,
weld nuts, comby nuts

custom cold formed parts:

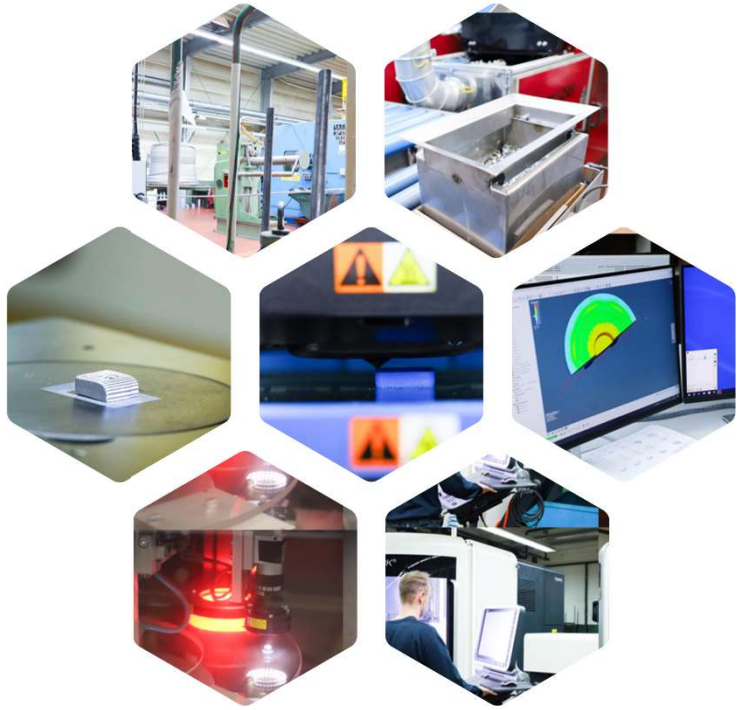

for innovative connections in
industrial applications and assemblies

6. special parts

We actively support our customers in the transition from machined / turned parts to cold formed parts.
The advantages are obvious:

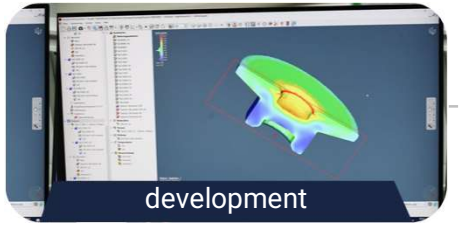

- cost optimization
- reduced use of raw materials
- time and cost savings
- fast production
- high quality products
- environmental protection

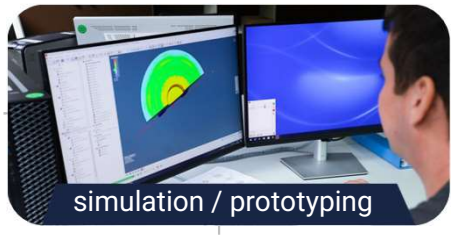

7. samples special

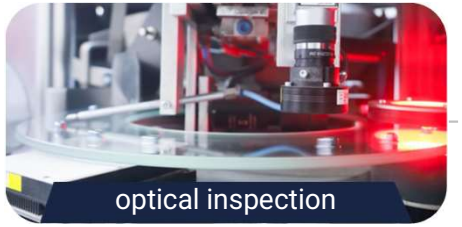

8. project process

development

material selection

simulation / prototyping

optical inspection

manufactured part

production

packaging

transportation

delivery
