

WaterWise PLUMBING

Is your water heater over 10 years old?

Most units start losing efficiency, building sediment, and developing internal corrosion after 8-10 year mark - which leads to higher utility bills and much greater risk of sudden failure or flooding.

10% OFF WATER HEATER UPGRADE

(When your current unit is 10+ years old)

INCLUDES:

- Gas, electric or hybrid installations
- Removal of your old unit
- Code-compliant installation
- New shutoff valve (if needed)
- Expansion tank evaluation
- Full system test and startup

WHY UPGRADE NOW?

- Prevent unexpected leaks or tank ruptures
- Restore efficiency & lower energy costs

HOW TO REDEEM:

Just show this coupon at the time of scheduling or serve and we'll apply the 10% discount directly to your estimate.

FINE PRINT: Valld for units 10 years old or older - Residential only
Not valid with other discounts or specials
