Dear Local Business,

We are excited to introduce you to our Pawsitive Impact Program! This program was designed to support businesses like yours while also making a meaningful difference in the lives of shelter dogs awaiting their forever homes.

By participating in our Pawsitive Impact Program you are able to contribute to the well-being of a shelter dog while gaining valuable exposure towards your business. Your generous tax deductible contribution of \$250.00 will cover the cost of an adoption and spay or neuter procedure for one special shelter dog.

In return we will feature your business in a special spotlight on the Wayne County Dog Shelter Facebook page with a reach of over 32,000. This spotlight will include: A showcase of the dog you supported in front of your business, display of your business logo, description of your business, and contact information to promote your business to our followers.

As a token of our gratitude, you will receive a window decal from the Wayne County Dog Shelter, acknowledging your support of a shelter dog. Additionally, we will prominently display a business advertisement on our Pawsitive Impact Partner board located in the Dog Shelter lobby, increasing visibility among our clients and your potential customers.

Thank you for considering this opportunity to support shelter dogs and promote your business. We look forward to the pawsibility of working together to make a meaningful difference in our community.

Kind regards,
Katelyn Lehman

The Wayne County Dog Shelter
