FOG MACHINES ALERT THE FIRE DEPARTMENT! PROM DELAYED BY 40 MINUTES!

A few minutes before prom was set to start, an attempt to use ambient fog machines triggered the fire alarms. Students and teachers vacated the building to escape the blisteringly loud sound, and wouldn't return inside till 40 minutes later. The fire department arrived ready to combat flames, but were instead met with a crowd of very well dressed, vampire-esque students. The alarms delayed the party,

but many say due to the hard work of teacher and student volunteers, prom was a great success. The red and black color scheme paired with the blood pack mocktail station really tied the theme together. Despite the stifling heat, pictures only display enthusiastic dancing and smiles. Special thanks to everyone who contributed to the event!

BEWARE

Real life photo of Joe Rogan

Dragon Scrolls HQ is sad to share news recently uncovered about a staff member at *Katherine Anne Porter School* regarding Ms. Avery Graham. She has been revealed to be Joe Rogan; podcast host to 'The Joe Rogan Experience'. The most unfortunate fact, and deciding factor of this whole scandal, is that **Joe Rogan is bald.**

Ms. Jenna; assistant SPED coordinator at KAPS, went undercover at a local *Joe Rogan experience* recording as Special Guest; *Barack Obama*.

As soon as she sat down in front of the microphone, she recognized her colleague. Ms. Avery, better known as Joey, attempted to blackmail her, but attempts fell through.

Because of this, Ms. Jenna, who lives at [ADDRESS REDACTED] would prefer to remain anonymous.

Sammy's bird of the month!

Bearded Vulture
Gypaetus Barbatus

Bird Examination

The bearded vulture is famous for primarily eating bones whole for it meals and is the only vertabraete known to have a diet that is 90% bone. Unlike most vultures it has a full head of feathers though fascinating its status is near threatened.

With a wingspan of up to 7 feet and standing at 49 in, the Bearded is the coolest vulture ever
