

POLITICS FOR A LIFE WITHOUT RESTRICTIONS

Our hotel strives to provide barrier-free tourism services to everyone within its means. In addition, customers and stakeholders are provided with clear and precise information on the accessibility level on the website.

Our hotel also undertakes to comply fully with the legal regulations on accessibility and to continuously improve in this regard.

We strive for continuous improvement not only for physically impaired people, but also for our guests who are unable to participate in tourist activities due to visual and hearing impairments.

Our hotel regularly carries out maintenance and repair work on its accessibility facilities and infrastructure, and makes improvements if necessary.
