

# CREMATION SERVICES OF PENNSYLVANIA

**Selecting an urn is very important.** It's a **visual representation** of your loved one's life. We offer a variety of high-quality, full-size urns from which you may select. We offer a unique variety of urns at very economical prices – often hundreds less than traditional funeral homes and other direct cremation companies.

## QUESTIONS TO CONSIDER WHEN SELECTING AN URN

### **Will you be having a celebration of life or memorial service in the future?**

The urn will be the **focal point** of your celebration of life or memorial service. Selecting a quality urn will properly *honor* your loved one.

### **Will you be keeping the urn?**

*We suggest selecting an urn that is visually appealing and represents well your loved one's life and interests.*

### **Will you be interring your loved one's remains in a cemetery?**

*Most cemeteries in Pennsylvania require a vault / grave liner for urns. Vaults may cost \$500 or more - an unexpected cost to most families. Our Cultured Marble urn/vault combo (offered in several colors) satisfies this requirement and saves the family significant money.*

### **Will you be scattering your loved one's remains?**

*Every urn can be a scattering urn. We also have a line of urns specifically designed to allow families to safely scatter the remains with dignity. Multiple exterior designs available based on your loved one's interests.*

### **Are there multiple family members who want an urn?**

*Almost every urn we offer comes in a small keepsake size. Keepsake urns allow multiple family members each to keep small portions of your loved one's remains.*
