
KEY BENEFITS

- **Compact profile:** 4.5" length and 1.55" OD for minimal overhang and easy handling.
 - **Outstanding suppression for size:** Tames the sharp "bark" of 9mm PCCs while preserving maneuverability.
 - **Boosterless design:** Direct-thread — no booster required on common semi-auto 9mm platforms.
 - **Shooter comfort:** Patented internal flow geometry redirects gases and reduces back-pressure and fumes.
 - **Durable materials:** Grade-5 Titanium for light weight; Inconel 718 option for full-auto-rated durability.
-

TECHNICAL SPECIFICATIONS

- **Length:** 4.5in
- **Outer Diameter (OD):** 1.55 in
- **Weight:** Titanium: **4 oz** · Inconel 718: **8 oz**
- **Materials:** Grade-5 Titanium (Ti-6Al-4V) or Inconel 718
- **Coating Options:** C-Series Cerakote (Black) / High-Temp Cerakote
- **Mount:** Direct-thread, 1/2-28
- **Full-Auto Rating:** Inconel 718 — **Yes**; Titanium — **No**

Supported Calibers: 9mm, 9mm +P, **300 Blackout subsonic (Inconel 718 version only).**
