

Netarts News

FROM YOUR CAC BOARD

Welcome to our second Netarts Newsletter! As we have paused our General meetings for the summer months, your CAC Board wanted to keep you updated on the work that is continuing with not only your Board, but the volunteers serving on both the Emergency Management Prep and the Dock/Nature Park workgroups.

Summer Projects

****Chief McBrayer and the Emergency Management Workgroup** have monthly meetings (first TH at 1100 at the Netarts Fire Hall).

**** Roger Miller and a work group** are in the beginning stages of creating a NETARTS COMMUNITY web page. Chief McBrayer is very excited to have a central source for Emergency Management info. It will also provide a central information source for current projects and how you can volunteer to be involved.

Summer in Netarts is always a busy time. We have lots of tourists visiting to enjoy our lovely corner of the world. In my home, it is also a bustle of family and friends visiting. The County Fair was a big success this year as well. We hope that you and yours have had an enjoyable summer. The CAC board and work groups have been meeting monthly. It is wonderful to see the number of folks who have donated time and expertise as we refresh our Emergency Preparedness Plan. We are looking at suggestions from earlier meetings to bring more speakers of interest to you. September's meeting will include nominations and October will be the ELECTION meeting for 3 of the 4 Board members. Put it on your calendar (9/27/25 and 10/25/25 at the Fire Hall 10:00)

Expect your next newsletter in early September with updates on 1) the agenda and guest for our Sept.meeting. 2) updates on work groups on Emergency Preparedness , the Community website and the Dock project.
