

Affordable Care Act (ACA) Form 1095-C - Notice of Availability

The Paperwork Burden Reduction Act and the Employer Reporting Improvement Act enacted on January 1, 2025, introduced several changes to simplify the ACA reporting process for employers, including the requirement to provide IRS Form 1095-C (Employer Provided Health Insurance Offer and Coverage) only upon request. This means you will not automatically receive this form each year. Instead, you can request it, if needed.
