## **2026 SPONSORSHIP PACKAGE**

**OUR YOUTH  
DESERVE  
THE BEST  
EXPERIENCES**

CODE313's programs are designed to facilitate valuable 21st-century skills through innovative, interactive and transformative learning experiences. With a variety of topics related to STEAM (science, technology, engineering, art and math), participants will take away skills critical to thriving in the rapidly advancing workforce.

# ABOUT US

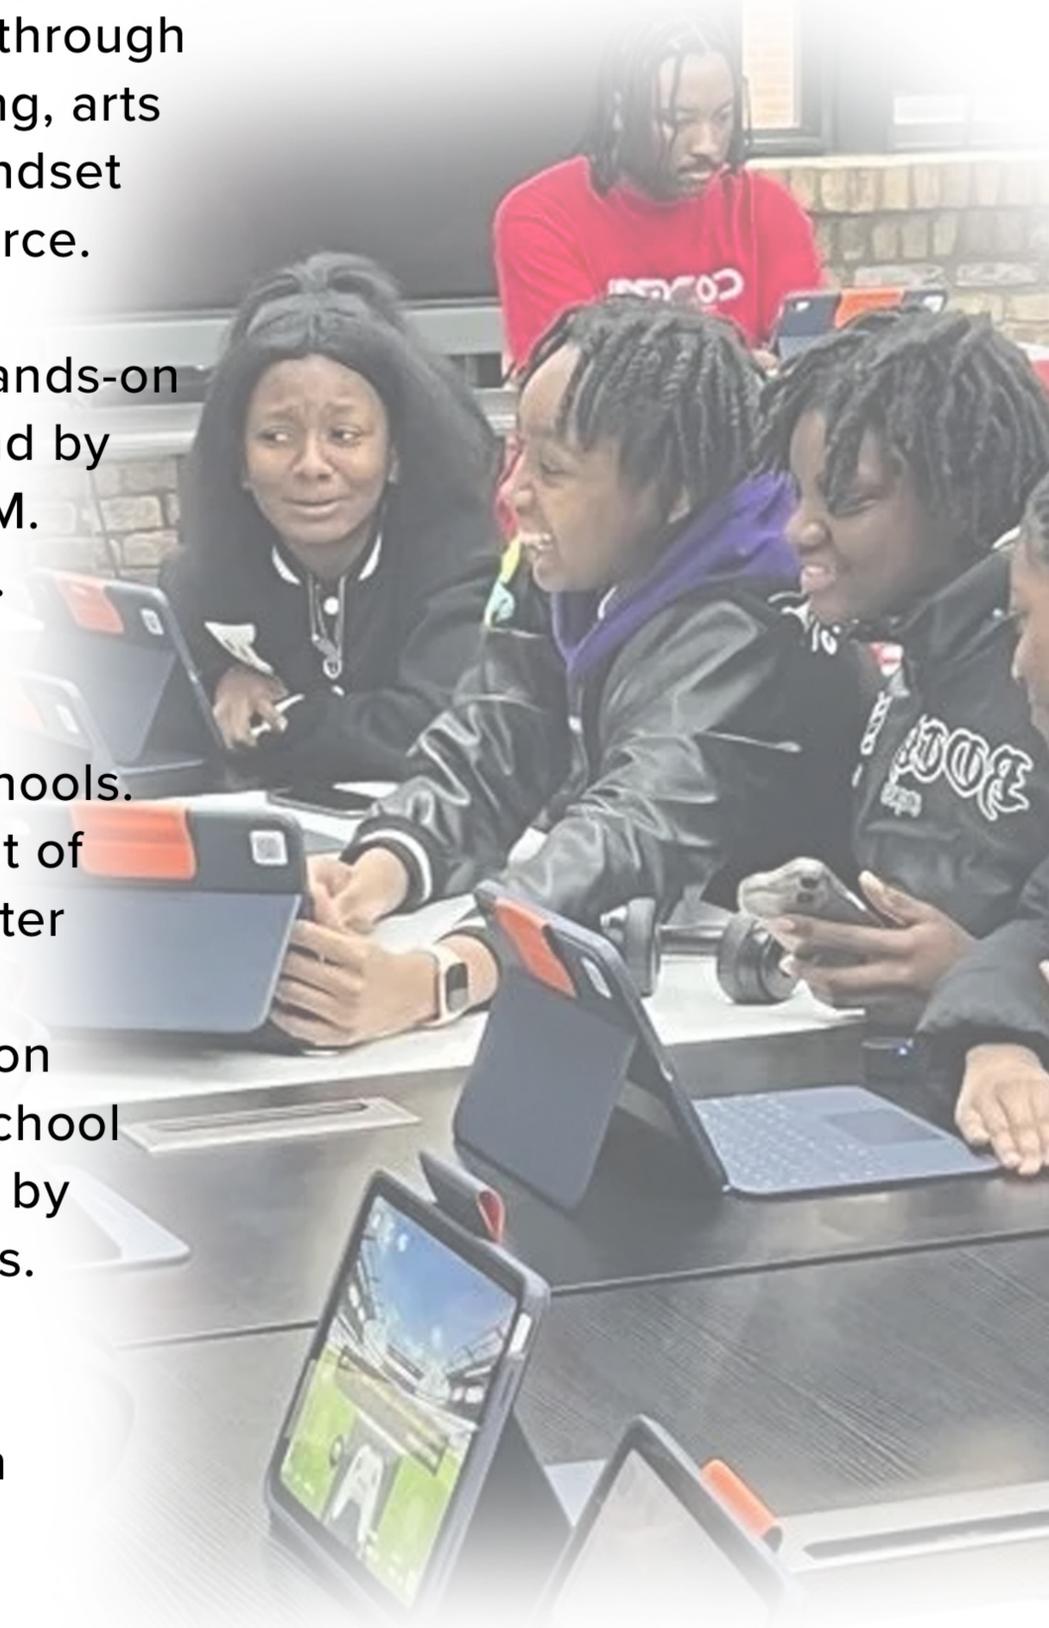

---

CODE313 is a STEM.org Accredited™ non-profit community-based organization dedicated to teaching, inspiring and enabling underserved 3<sup>rd</sup> - 12<sup>th</sup> graders (ages 7-17) by providing equitable access to S.T.E.A.M. education. The transferable skills learned through S.T.E.A.M. (science, technology, engineering, arts and math) promotes a problem-solving mindset that is essential for the 21<sup>st</sup> century workforce.

Our free or low-cost workshops provide hands-on instruction by our seasoned employees and by volunteers from the Metro-Detroit S.T.E.A.M. community inspired to share their passion.

CODE313 was founded to fill the void in computer science education in primary schools. While technology is an essential ingredient of economic growth and job creation, computer science is the only S.T.E.A.M. field that has seen a decrease in student participation over the last 20 years, from 25% of high school students to only 19%, according to a study by the National Center for Education Statistics.

Our goal is to create a fun, collaborative environment to explore S.T.E.A.M. Through challenging play, youth can build memorable experiences with mentors.

---

**“Giving young people the opportunity to become tomorrow’s workforce TODAY.”**

## OUR MISSION

Our mission is to provide equitable access to STEAM Education. We do this by offering children the foundational skills needed to create, using today's technology through exciting hands-on enrichment camps and workshops.

## 2026 OBJECTIVE

Our objective for the year of 2026 is to help expose more than 30,000 youth to coding, technical, leadership, teamwork, and workforce development skills.
