

TESTIMONIES

[The Caring Cradle® Mini] looks beautiful & it is the **perfect size** for perinatal losses and NICU micro-preemie losses

FLORENCE, RN

The Caring Cradle® [Original] is extremely easy to use. No more late-night frustrated calls from staff trying to figure out how this thing works [water-cooled cots]...**We really do love our Caring Cradles!**

LORI, MSN, RN, CNML

For the first time today, I saw [The Caring Cradle® Mini] when we used it for a micro-preemie who passed away. **It was advantageous & appropriate for the size of the baby.**

MARIE, RN

I only got 35 minutes with my baby, so this would have been amazing for me.

DAWN

In these **moments of crisis**, hospitals aren't equipped to provide mothers with **the time they need**, which makes them feel more trauma, shock & grief. This is where the Caring Cradle can help.

- 24/7/365 customer service

WHAT IS THE **CARING CRADLE®**

The Caring Cradle® is a cooling device that offers a dignified and comfortable way for parents and family to spend time with their baby that has died.

The cooling of the cradle slows the natural changes that occur after death. The gel mat is easy to manage and allows families to hold their baby outside of the cradle.

THE CARING CRADLE® **MINI**

DESIGNED FOR INFANTS
UNDER 4LBS

The Mini offers all the benefits and features of The Original but in a size more suitable for early-term losses. Its tabletop design allows for a more delicate and gentle presentation for the smallest of losses.

OPTIONAL ACCESSORIES

The gel mats are reusable and should be sanitized after each use. Optional waterproof, disposable covers are available to allow for easy cleanup.

Additional gel mats and covers are available on our website.
