Good Afternoon Bull Shoals team,

I wanted to follow up our discussion yesterday and see when you all might want to schedule a call to discuss Fulcrum usage with Eva more. Her and I both have availability all day tomorrow except 12pm CST, all day Monday except 2pm CST and most of Tuesday as well. Let me know if any of those time frames work and I will send out meeting invites. If you'd like later dates, please feel free to let me know as well.

Best,

Hello Bull Shoals Team,

Our colleague, Eva, at the SWEFC has pulled together some information on the options we could use for helping track smoke testing data. We would like to provide a demonstration on these options to you all in Bull Shoals. Would a meeting this week on Wednesday or Thursday work? We have availability Wednesday June 7th 9am-2pm and 3pm-4pm CDT, and then Thursday June 8th 9am-11am and 2-3:30pm CDT. If either of those works for you let us know, or if you need to schedule something farther out, please let us know as well.

Best,

A.J. Barney

[EXTERNAL]

Greetings all –

Here are the minutes from our meeting last week. Please review the Next Steps section at the end as there are several action items for folks. Our next check-in will be May 20 at the usual time – invite to follow,

Thanks,

Kevin Stockton
