MAN'S BEST FRIEND

For more than twenty years, Donna Jay has been setting the standard in ethical dog breeding. From her rural base, she has built Donna Jay's Celebrity K9's into one of the region's most respected and trusted names, thanks to her dedication to the welfare and wellbeing of every dog in her care.

Donna first made her mark breeding the strong-willed Dogue de Bordeaux, earning recognition for producing dogs of outstanding temperament, type and construction with championship bloodlines. Donna has produced Crufts winners over many consecutive years. Today, her expertise has expanded to include Cavalier King Charles Spaniels, Cavapoos, Shipoos and Imperial Shih Tzu.

She also supports the wider breeding community by offering carefully health-tested stud dogs and fertility services. Her studs include Imperial Shih Tzus, Dogue de Bordeaux, Cavalier King Charles Spaniels in all four colours, Toy and Miniature Poodles, Maltese, Pomeranians and Chihuahuas. All dogs are Kennel Club registered and laboratory health-tested, helping to ensure they are free from hereditary or serious genetic diseases.

"My dogs are priority – they come first," says Donna, and it's a philosophy that runs through everything she does.

Having a dog can bring so much to everyday life. Regular walks and play encourage us to get outside and stay active, making exercise part of our daily routine while enjoying time together.

Dogs can also have a positive effect on our wellbeing. Their companionship can help reduce stress, provide comfort and bring happiness to our days. Walking a dog can also help us meet other people and connect with fellow dog owners.

But perhaps one of the greatest gifts is companionship. A dog is always there to greet you and share the ups and downs of everyday life. They become a much-loved member of the family – a loyal companion, a source of comfort and, for many, their very best friend.

Donna's reputation speaks for itself, with litters often reserved before puppies are even born. Every puppy leaves with a full veterinary health check, worming, microchipping and a veterinary health certificate, along with a comprehensive puppy pack and Donna's ongoing support and advice.

Donna Jay's Celebrity K9's is more than a breeding business – it's built on compassion, professionalism and a genuine love of dogs.

As Christmas approaches, it's worth remembering that a dog is for life, not just for Christmas.
